Additional questions:

1. Why are you a Democrat? Because the Democratic Party seems to represent most of my views and the views of the majority of the people I know.

2. Have you previously held elected office? If so, which one(s)? No
3. What do you believe are the greatest challenges facing the State of Illinois and areas of greatest opportunity? Balance the budget and keep it balanced, don't spend what you don't have and build a reserve for emergencies. Listen to the people and act on what they want and need and not special interest groups. I believe with cooperation the budget could be balanced within two to three years. It will not be easy and sacrifices must be made but taxes would not and should not be increased. I have an informal plan in mind.
4. What strengths would you bring to the ticket? I am an unknown, no experience and with NO TIES TO ANYONE! I will accept nothing with strings attached. I have no skeletons in my closet. Consider Scott Lee Cohen and what he accomplished. I think the people want someone to represent THEM for a change, not some fancy lawyer (sorry but that is what is happened). This may sound stupid but MY CHECK BOOK IS ALWAYS BALANCED, IS THE STATES?? That's my strength.
5. Please list any organizations or elected officials that have endorsed your candidacy for lieutenant governor. None, I'm clean and free from any potentially bad associations or endorsements.

Paid for by the Democratic Party of Illinois.
