

Indiana Blood Center Immunohematology Reference Lab

Blood Bank Crash Course Schedule for 2012

Introduction:

The Indiana Blood Center Immunohematology Reference Lab (IBC-IRL) is pleased to announce the Blood Bank Crash Courses for 2012.

Purpose:

To supply continuing blood bank education for blood bank technologists in the Central Indiana area. The objective is to provide a review of technical blood bank topics for technologists. The classes will include theory review, technical review and case studies.

Basic Blood Bank Crash Courses 2012

Target audience: Generalist Staff Members and Blood Center Associates

Lead trainers: IRL Technical Coordinator, Carol Kelly and IRL Manager, Jayanna Slayten

- Repeat of the IBC Review classes will be presented in March and August 2012.
- These classes are updated annually and provide a basic review of blood bank testing, transfusion practice and antibody identification (ABID).
- Classes include
 - **Routine Blood Bank Testing Review.**
 - **Review of General Transfusion Practices**
 - **So, Your Antibody Screen is Positive?**

Intermediate/Advanced Blood Bank Crash Courses 2012

Target audience: Dedicated Blood Bank Staff Members or Supervisors

Lead Trainer: IBC-IRL Manager, Jayanna Slayten.
IBC QA Specialists: Lora Poore, Beth Hughes, Becky Moss and Nicki Campbell

Summer/Fall 2012: Q and A with the Quality Department

- Common quality concepts will be reviewed similar to the "Ask the FDA?" format of the AABB Annual Meeting.
- Questions will be submitted by facilities to be answered by the Quality Experts at the IBC
- The crosswalk between TJC, AABB and CAP will be explored.
- Case studies will be reviewed.

Class Details:
