

COURSE TITLE: MX NEW USER (3 days)

COURSE DETAILS

Objectives: This three day workshop based course provides a solid foundation in the use of the interactive functions in **MX** for the novice user, relevant to many civil engineering disciplines - highways and railways design, mining, water engineering and landscaping. This will enable engineers or technicians to operate the system confidently through a good understanding of the principles of surface modelling and **MX** and will provide a solid understanding of the more commonly used functions.

Who should attend: Design engineers, engineering technicians who have basic knowledge in road design, or Project Managers and MX Support Personnel needing a general understanding of **MX**.

Course Date : _____ (Refer Training Schedule)

Course Venue : **Bentley Systems (Malaysia) Sdn Bhd**
Suite 15.4A, 15th Floor, Menara Aik Hua,
Changkat Raja Chulan,
50200 Kuala Lumpur.

Course Timing : 9:00 am – 5:00 pm

Course Fees : **RM1,800.00/pax**

Contact Person: Christy Leow
Email Address : christy.leow@bentley.com
Telephone No : +603 2026 5233
Facsimile No : +603 2026 5232

COURSE OUTLINE

Day 1

- ◆ Basic concepts and getting started
- ◆ Importing, displaying & checking survey
- ◆ Essential housekeeping
- ◆ Importing & continuing a partial design.

Day 2

- ◆ Designing a new road
- ◆ Horizontal & vertical alignment design
- ◆ Channels, junctions and associated works

Day 3

- ◆ Earthwork slopes
- ◆ Dynamic report generation
- ◆ Plan layout
- ◆ Long & cross section generation
- ◆ Volumes

Each Student Receives: -

- ✓ Printed course materials which are valuable learning tools and take home reference.
- ✓ Telephone support on class topics at no extra charges
- ✓ Bentley Institute Certificate upon completion of course.

REGISTRATION FORM

To be submitted at least 10 working days prior to commencement of course. (Registration Fax to: 03-2026 5232)
