SLP FST Intake Tube Heat Shield Part #14-124

Kit Contents:

Heat Shield
(2) Zip Ties

1. Loosen the hose clamp from the inter cooler to the intake tube.
2. Pull intake tube off of the inter cooler. Install the SLP Heat Shield over the intake tube. Using the 2 zip ties provided secure into place at the front and rear of the tube.
NOTE: Do not remove tube from air box.
3. Reinstall tube into the inter cooler and tighten the hose clamp.

For additional air flow through the chassis for reduced underhood heat SLP also recommends the use of Hot Air Elimination Kits (Part #32-522 left side, Part #32-523 right side).
