Sparta or Athens: Where Would You Rather Live?  You are to choose whether you would rather live in Sparta or Athens. You must set up a campaign to enlist as many new people as possible to join your city-state. Create a visual display that persuades others, including arguments with supporting evidence, as to why they should live in your city-state and not in the other.					
Requirements/Checklist:					
1. You must include a <u>creative slogan</u> on the front of the display					
2. You must include at least 10 different accurate reasons as to why newcomers should choose your city-state and not the other. Your reasons should serve as evidence showing the contrast between the concepts of both city-states. (Example: You should go to Wegman's instead of Giant because Wegman's has a variety of food choices in their numerous hot and cold bars whereas Giant just has a salad bar with a couple hot items.)					
3. You must include at least 10 different relevant pictures with captions (Your captions can be your reasons). (Pictures may be drawn, cut out of magazines, or printed from the Internet).  *If you print pictures from a credible, appropriate website, then you MUST cite the exact website from which you found the picture(s). You may not just use "google images" as your citation since that is just a search engine; not a website.					
4. You must include <u>color</u> in at least half of the pos	ster.				
5. You must have your rubric when submitting you deduction of one point if you don't have it.)	ur completed project. (It will be a
