Physician Signature: _____ **Date** _____

STATEMENT OF PURPOSE

Adult Homes (AH), Enriched Housing Programs (EHP), Residences for Adults (RFA), Assisted Living Residences (ALR), Enhanced Assisted Living Residences (EALR) and Special Needs Assisted Living Residences (SNALR) provide 24-hour residential care for dependent adults. They are not medical facilities. Persons in need of constant medical care and medical supervision should not be admitted or retained in these settings because the facility lacks the staff and expertise to provide needed services. Persons who, by reason of age and/or physical and/or mental limitations are in need of assistance with activities of daily living, can be cared for in adult residential care settings listed above.

ALRs with certification to provide:

Enhanced ALR care may serve people who need chronic assistance from another person with ambulation, transfer, ascending / descending stairs; are dependent on medical equipment, have intermittent nursing needs (less than 24 hours a day); or have chronic, unmanaged urinary or bowel incontinence.

Special Needs ALR care may serve people who have a need for a secured environment and/or highly specialized services due to advanced dementia or other special need.
