### **19 CFR PART 122**

#### **CBP Dec. 08–39**

#### **TECHNICAL AMENDMENT TO LIST OF USER FEE AIRPORTS: ADDITION OF VALLEY INTERNATIONAL AIRPORT, HARLINGEN, TEXAS**

**AGENCY:** Customs and Border Protection, Department of Homeland Security.

**ACTION:** Final rule; technical amendment.

**SUMMARY:** This document amends the Customs and Border Protection (CBP) Regulations by revising the list of user fee airports to reflect the recent user fee airport designation for Valley International Airport in Harlingen, Texas. User fee airports are those airports which, while not qualifying for designation as international or landing rights airports, have been approved by the Commissioner of CBP to receive, for a fee, the services of CBP officers for the processing of aircraft entering the United States, and the passengers and cargo of those aircraft.

**EFFECTIVE DATE:** September 10, 2008.

**FOR FURTHER INFORMATION CONTACT:** Scott Welch, Office of Field Operations, 202–344–2642.

#### **SUPPLEMENTARY INFORMATION:**

##### **BACKGROUND**

Title 19, Code of Federal Regulations (CFR), sets forth at Part 122 regulations relating to the entry and clearance of aircraft in international commerce and the transportation of persons and cargo by aircraft in international commerce.

Generally, a civil aircraft arriving from a place outside of the United States is required to land at an airport designated as an international airport. Alternatively, the pilot of a civil aircraft may re-

quest permission to land at a specific airport, and, if landing rights are granted, the civil aircraft may land at that landing rights airport.

Section 236 of Pub. L. 98-573 (the Trade and Tariff Act of 1984), codified at 19 U.S.C. 58b, created an option for civil aircraft desiring to land at an airport other than an international airport or a landing rights airport. A civil aircraft arriving from a place outside of the United States may ask for permission to land at an airport designated by the Secretary of Homeland Security<sup>1</sup> as a user fee airport.

Pursuant to 19 U.S.C. 58b, an airport may be designated as a user fee airport if the Commissioner of CBP as delegated by the Secretary of Homeland Security determines that the volume of business at the airport is insufficient to justify customs services at the airport and the governor of the state in which the airport is located approves the designation. Generally, the type of airport that would seek designation as a user fee airport would be one at which a company, such as an air courier service, has a specialized interest in regularly landing.

As the volume of business anticipated at this type of airport is insufficient to justify its designation as an international or landing rights airport, the availability of customs services is not paid for out of appropriations from the general treasury of the United States. Instead, customs services are provided on a fully reimbursable basis to be paid for by the user fee airport on behalf of the recipients of the services.

The fees which are to be charged at user fee airports, according to the statute, shall be paid by each person using the customs services at the airport and shall be in the amount equal to the expenses incurred by the Commissioner of CBP in providing customs services which are rendered to such person at such airport, including the salary and expenses of those employed by the Commissioner of CBP to provide the customs services. To implement this provision, generally, the airport seeking the designation as a user fee airport or that airport's authority agrees to pay a flat fee for which the users of the airport are to reimburse the airport/airport authority. The airport/airport authority agrees to set and periodically review the charges to ensure that they are in accord with the airport's expenses.

The Commissioner of CBP designates airports as user fee airports pursuant to 19 U.S.C. 58b. See 19 CFR 122.15. If the Commissioner decides that the conditions for designation as a user fee airport are satisfied, a Memorandum of Agreement (MOA) is executed between

---

<sup>1</sup> Sections 403(1) and 411 of the Homeland Security Act of 2002 ("the Act," Pub. L. 107-96) transferred the United States Customs Service and its functions from the Department of the Treasury to the Department of Homeland Security; pursuant to section 1502 of the Act, the President renamed the "Customs Service" as the "Bureau of Customs and Border Protection." Effective on March 31, 2007, DHS changed the name of "Bureau of Customs and Border Protection" to "U.S. Customs and Border Protection (CBP)" (See 72 FR 20131, April 23, 2007).

the Commissioner of CBP and the local responsible official signing on behalf of the state, city or municipality in which the airport is located. In this manner, user fee airports are designated on a case-by-case basis. Section 19 CFR 122.15 sets forth the grounds for withdrawal of a user fee designation and sets forth the list of designated user fee airports. Periodically, CBP updates the list of user fee airports at 19 CFR 122.15(b) to reflect those that have been currently designated by the Commissioner. This document updates that list of user fee airports by adding Valley International Airport, in Harlingen, Texas to the list. On May 28, 2008, the Commissioner signed an MOA approving the designation of user fee status for Valley International Airport.

#### **INAPPLICABILITY OF PUBLIC NOTICE AND DELAYED EFFECTIVE DATE REQUIREMENTS**

Because this amendment merely updates the list of user fee airports to include an airport already designated by the Commissioner of CBP in accordance with 19 U.S.C. 58b and neither imposes additional burdens on, nor takes away any existing rights or privileges from, the public, pursuant to 5 U.S.C. 553(b)(B), notice and public procedure are unnecessary, and for the same reasons, pursuant to 5 U.S.C. 553(d)(3), a delayed effective date is not required.

#### **THE REGULATORY FLEXIBILITY ACT AND EXECUTIVE ORDER 12866**

Because no notice of proposed rulemaking is required, the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 et seq.) do not apply. This amendment does not meet the criteria for a “significant regulatory action” as specified in Executive Order 12866.

#### **SIGNING AUTHORITY**

This document is limited to a technical correction of CBP regulations. Accordingly, it is being signed under the authority of 19 CFR 0.1(b).

#### **LIST OF SUBJECTS IN 19 CFR PART 122**

Air carriers, Aircraft, Airports, Customs duties and inspection, Freight.

#### **AMENDMENT TO REGULATIONS**

Part 122, Code of Federal Regulations (19 CFR part 122) is amended as set forth below:

#### **PART 122—AIR COMMERCE REGULATIONS**

1. The authority citation for Part 122 continues to read as follows:

**AUTHORITY:** 5 U.S.C. 301; 19 U.S.C. 58b, 66, 1431, 1433, 1436, 1448, 1459, 1590, 1594, 1623, 1624, 1644, 1644a, 2071 note.

2. The listing of user fee airports in section 122.15(b) is amended as follows: by adding, in alphabetical order, in the "Location" column "Harlingen, Texas" and by adding on the same line, in the "Name" column, "Valley International Airport."

**ANNOUNCEMENT OF TERMINATION OF NATIONAL  
CUSTOMS AUTOMATION PROGRAM (NCAP) TEST:  
SEMI-MONTHLY STATEMENT PROCESSING PROTOTYPE**

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: General notice.

SUMMARY: This document announces U.S. Customs and Border Protection's decision to formally terminate the test of the semi-monthly filing and statement processing prototype program that was initiated in April 1998, as part of the National Customs Automation Program. The test of the semi-monthly filing program was conceived as a transitional procedure from the Automated Commercial System to the full electronic processing of commercial importations in the Automated Commercial Environment, which allows account holders to pay duties, taxes, fees, and other payments owed using a periodic statement cycle. The Automated Commercial Environment portal system for Periodic Monthly Payment statement processing has been deployed nationwide thereby ending the need for the semi-monthly filing program.

EFFECTIVE DATE: September 8, 2008.

## **SUPPLEMENTARY INFORMATION:**

### **Background**

Title VI of the North American Free Trade Agreement Implementation Act, Pub. L. 103-182, 107 Stat. 2057 (December 8, 1993), contains provisions pertaining to Customs Modernization (107 Stat. 2170). Subtitle B of Title VI establishes the National Customs Automation Program (NCAP)- an automated and electronic system for the processing of commercial importations. Pursuant to the provisions of Subtitle B, U.S. Customs and Border Protection ("CBP") developed a new commercial processing system, the Automated Commercial Environment ("ACE"), which is phasing out the Automated Commercial System ("ACS").

As an interim measure, while the ACS was still in use for the filing of duties, taxes, fees and other payments, the former Customs Service (now CBP) published a General Notice entitled "Announcement of National Customs Automation Program Test: Semi-Monthly Statement Processing Prototype" in the **Federal Register** (63 FR 15259) on March 30, 1998, pursuant to section 101.9(b) of CBP regulations (19 CFR 101.9(b)), which implemented the NCAP testing procedures. The prototype permitted importers to file entry summaries and to pay their duties, taxes, and fees within seven days of the end of a fifteen or sixteen day semi-monthly period for cargo released during that period. Pursuant to section 1505 of the United States Code (19 U.S.C. § 1505), the interest rate was calculated using the rate in effect seven days after the fifteen or sixteen day semi-monthly period. It provided for suspension of a participant for misconduct and an appeal process. Only six importers elected to participate in the program. The notice originally instituted the program at only 14 ports of entry. The notice stated that the semi-monthly filing and statement processing prototype would be implemented over an 18-month period and would end when the periodic payment/statement feature of ACE was available.

However, ACE was not fully implemented in 2002 and the testing of the semi-monthly processing prototype was incomplete. The reasons for these developments were many, namely, budgeting difficulties, the occurrence of other national events, which occasioned a shifting of CBP priorities, the continuing reorganization of Customs, etc. Furthermore, evaluations of the prototype conducted with participants showed a concern that the prototype testing should be expanded to additional ports so that the national effect of this program

could be fully gauged. The test was not opened to any new participants, but the original six participants continued in the program. As the test program continued, a series of notices announced changes or modifications to the test program in the following notices published in the **Federal Register**: 67 FR 39098 (June 6, 2002); 69 FR 5362 (February 4, 2004); 69 FR 54302 (September 8, 2004); 70 FR 5199 (February 1, 2005); 70 FR 45736 (August 8, 2005); 70 FR 55623 (September 22, 2005) and 71 FR 3315 (January 20, 2006). The development of this NCAP test is set forth in these prior notices.

**Termination of National Customs Automation Program Test  
on the Semi-Monthly Statement Processing Prototype**

The periodic monthly payment statement ACE-based process, referenced above, has now exceeded over two billion dollars in revenues on the periodic deposit of estimated duties and fees. All of the six original participants in the “Semi-Monthly Statement Processing Prototype” have terminated their involvement in the program in favor of participation in the ACE-based process. The Automated Commercial Environment portal system for Periodic Monthly Payment statement processing has been deployed nationwide thereby ending the need for the semi-monthly filing program. Therefore, this notice formally announces the termination of the “Semi-Monthly Statement Processing Prototype” under the NCAP.
