Request for Permit and Use of a Temporary Power System for:

(Identify the use)

I, _____, am applying for a permit to be issued for a
(Owner or Agent)
temporary construction power system to be installed at:

(Address)

I understand and agree that the electrical service to my temporary power system, as authorized by the California Electrical Code Section 590-3, may be ordered disconnected by the Building Official, in accordance with Sections 90.4.1.1 and 90.4.1.2 of the Ventura County Building Code, if any of the following conditions occur:

- The building permit, # _____ which this Temporary Power System supports is revoked, cancelled, expired.
- The Temporary Power System is connected to any building, structure or equipment other than a temporary residence authorized for use during construction of a single family dwelling permitted under permit # _____.

I understand and agree that upon completion of the project that the Temporary Power System serves, the electrical service will be removed from the temporary location and switched over to the permanent structure constructed pursuant to the Building Permit. The temporary power pole or service location will then be removed from the property.

Permit Number: _____

Date: _____
