IMPORTANT: When selecting walls AND floors on Flats, refer to Table 3a, b or c of the Handbook to ensure compatibility.

Plots on BOTH sides of all Separating Elements must be included: i.e. in order to register the first separating floor in flats, Ground and 1st floor plots need to be entered.

Any separating walls or floors which are not registered with Robust Detail may be subject to the pre-completion testing (PCT) method of satisfying Requirement E1.

EXAMPLE – one site with a block of flats and one row of terraced houses

Data Protection Act 1998 – Data Protection Notice. This notice only applies to an individual's personal details. Robust Details Limited (RDL) is the data controller for the purposes of the Act. When you contact RDL your personal details will be recorded (or processed as the Act calls it). RDL will record your details for the purposes of dealing with your enquiries about robust details, the provision of services by RDL, administration, research and for statistical purposes. RDL may disclose your details to local and national authorities and Government Departments involved with robust details and the Building Regulations and to any warranty and insurance company providing cover on homes into which robust details are built for the purposes of its home registrations, inspections and claims handling. When you contact RDL you are taken to have consented to data processing. In the future, we may write or email you with information about our products and services.
