

Regional Dementia Declaration Action Plan

Name of your organisation

Template for organisations to set out what they are doing to support delivery of the Regional Dementia Declaration

This template is for organisations supporting the Regional Dementia Declaration to set out what they intend to do by 2014 to transform quality of life for people with dementia. This will be published online.

1. The National Dementia Declaration lists a number of outcomes that we are seeking to achieve for people with dementia and their carers. How would you describe your organisation's role in delivering better outcomes for people with dementia and their carers?

The intention of this question is to allow you to describe your role in delivering the outcomes described for people with dementia and their carers. Your response could include a national and local role. Consider the role you have in influencing and supporting the work of other organisations as well as the projects you deliver. (Word limit of 200 words).

Please write your answer to question 1 here.

2. What are the challenges to delivering these outcomes from the perspective of your organisation?

This question is to allow you to set out some of the key challenges to delivering for people with dementia from your organisation's perspective. For example, a Public Transport provider might state the challenge on its staff understands about dementia. A training body might say that there is no agreement on what core curricula should be. (Word limit of 150 words).

Please write your answer to question 2 here

3. What are your plans as an organisation to respond to these challenges between now and 2014?

This question seeks to understand what specifically your organisation will do to support delivery of the outcomes for people with dementia given the role that you have identified for your organisation and the challenges you have set out. You could describe activities that are already happening or those being planned. Additionally you might want to consider whether there are other Regional Dementia Declaration Action Plan opportunities to incorporate dementia into your general work. For example, are there programmes of work you are currently progressing that could benefit people with dementia and their carers? Where could you commit to dementia being supported within that work?

The scope of activity you describe could be anything you are doing that relates to people with dementia along the dementia care pathway, from awareness of dementia, through diagnosis to the end of life. It could relate to outcomes for people in any setting - in the community, in hospitals, and in care homes. It could include description of national and local activities your organisation will be delivering.

For the purposes of formatting the eventual list of organisations' commitments, can we suggest that you put together a bulleted list which is no longer than an A4 page that contains no more than 10 bullet points. The more specific the list can be with milestones the more useful it will be.

We appreciate that for some organisations specifying work out as far as 2014 might not be possible.

Please write your answer to question 3 here

4. The next stage of the Regional Dementia Alliance project will be a launch in 2012 which would seek to develop partnerships with a range of organisations that can help us to deliver the Declaration, such as civic organisations and employers.

What networks or communication channels are available to your organisation that could help us to spread the word about the next stage of the Declaration? For example through newsletters, websites and new media
