

City of London Household Special Waste Depot Industrial, Commercial and Institutional (ICI) Small Quantity Exemption Acceptance Criteria

The HSW Depot will only accept hazardous waste, hazardous industrial waste, characteristic waste and liquid industrial waste from ICI generators. The ICI generator must meet the criteria of small quantity exemption as stated in the Registration Guidance Manual for Generators of Liquid Industrial and Hazardous Waste. The Small Quantity Exemption (SQE) limits for hazardous and characteristic waste is 5 kg/month (60 kg/year) and is 25 kg/month (300 kg/year) for liquid industrial waste.

Hazardous Waste – Acceptance Criteria

- The HSW Depot will only accept 60 kg of hazardous waste per year per generator.
- The hazardous waste shall be received in containers no greater than 25 litres in size.
- The containers must be sealed, in good condition (not broken or leaking) and be labeled as described below.

Hazardous Waste - Labeling Requirements

- Each container must be identified with a label showing the company name, address, telephone number, name of the company representative and contents of the container.
- Each container of hazardous waste must have a certificate containing the following statements affixed to the container:
 - “All waste in this container is hazardous industrial waste, hazardous waste chemical or characteristic waste.”
 - “No waste in this container has been mixed, blended, bulked or in any other way intermingled with any other waste or material.”
 - “This waste has been generated solely at [insert name of generator]’s facility which generates no greater than 5 kg of hazardous industrial waste, hazardous waste chemical and characteristic waste in any month and is being accumulated for transportation purposes only.”
 - “This container and seal comply with the requirements of the Generator Registration Manual.”
 - The total weight of this container does not exceed 30 kg.”

Liquid Industrial Waste – Acceptance Criteria

- Liquid industrial waste is limited to antifreeze, oil and paint.
- The HSW Depot will only accept 300 litres of each type of liquid industrial waste per year per generator.
- The hazardous waste shall be received in containers no greater than 25 litres in size.
- The containers must be sealed and in good condition (not broken or leaking).

Liquid Industrial Waste – Labeling Criteria

- Containers greater than 4 litres must be identified with a label showing the company name, address, telephone number, name of the company representative and contents of the container.
