| Report on Boundaries             | for Middle School #8 and Summer      | Creek High School           |
| <b>Background/Impact Infor</b>   | mation: With the opening of Sumn     | ner Creek High School       |
| (SCHS) in 2009 and Middle        | School #8 (MS #8) in 2010, it has be | ecome necessary to adjust   |

middle and high school attendance zones.

Beginning in April, 2008, the 8-member Citizens Boundary Advisory Committee (CBAC)

began considering proposed boundaries for SCHS and MS #8.

The Population and Survey Analysts (PASA) provided suggested high school and middle school boundaries and enrollment projections that would become effective with the opening of SCHS and MS #8. PASA's proposed high school boundaries would provide enrollment relief for Atascocita High School (AHS) and Humble High School (HHS), while their proposed middle school boundaries would provide enrollment relief only for Atascocita Middle School (AMS).

During the months of April and May, 2008, the CBAC developed four additional boundary options:

- CBAC Zoning Option 1 which would provide enrollment relief for AHS, HHS, AMS, and Humble Middle School (HMS).
- CBAC Zoning Option 2 which would provide enrollment relief for AHS, HHS, AMS, HMS, and Sterling Middle School (SMS).
- CBAC Zoning Option 3 which would provide enrollment relief for AHS, HHS, AMS, and HMS.
- CBAC Zoning Option 4 which would provide enrollment relief for AHS, HHS, AMS, and SMS.

The maps for the PASA boundary proposal and the four boundary options developed by the

CBAC, along with detailed information regarding the subdivisions that would change middle and/or high schools, enrollment projections, and the pros and cons (based on past charges to the CBAC from the Board of Education) were placed on the district web site and shared with the newspapers serving the area.

In September, 2008, two Community Input Meetings were held at AHS and HHS to share the boundary proposals, answer questions regarding the boundary proposals, and gather input from parents and patrons. Due to Hurricane Ike, a third meeting scheduled for HMS was cancelled.

Based on the written and oral feedback gathered at the Community Input Meetings, 10 additional boundary options were developed. Five of the options were variations of the PASA proposal, and CBAC Zoning Options 1-4. Under each of the five options, the entire Park Lakes Elementary attendance area was moved into the MS #8 attendance area.

Five additional options were also variations of the PASA proposal and CBAC Zoning Options 1-4. Under each of these five options, the entire Park Lakes Elementary attendance area was moved into the MS #8 attendance area and Fall Creek was moved into the HMS attendance area.

Following the Community Input Meetings, the CBAC met and considered each of the 15 boundary options. Based on feedback gathered at the Community Input Meetings, enrollment projections, maps of the proposed middle and high school boundaries, the pros and cons for each option, and transportation costs, the CBAC developed and recommended CBAC Zoning Option 5 (the PASA high school proposal for high school boundaries and a variation of the CBAC Zoning Option 4 middle school proposal for middle school boundaries) to the superintendent.

CBAC Zoning Option 5 (Attachments 1-4) provides enrollment relief for HHS and AHS, although the full effect of the enrollment relief won't be felt the first two years SCHS is open. (In 2009-10, SCHS will serve grades 9 and 10; students in grades 11 and 12 will attend the high school to which they are currently assigned. In 2010-11, SCHS will serve grades 9-11; students in grade 12 will attend the high school to which they are currently assigned.) Enrollment at HHS is projected to drop from a projected enrollment of 2561 in 2008-09 to 2013 in 2011-12, and AHS is projected to drop from a projected enrollment of 3375 in 2008-09 to 2881 in 2011-12, the first year HHS, AHS, and SCHS all serve grades 9-12. In 2011-12, SCHS is projected to have an enrollment of 2091, increasing to approximately 3300 students in 2017. The permanent functional capacity of HHS is 2400 students, and the functional capacities of AHS and SCHS are 3200 students.

#### Under CBAC Zoning Option 5:

- High school students living in the following subdivisions/apartment complexes are
  moved from HHS to SCHS beginning in August, 2009: Audubon Park, Audubon Park
  Condominiums, Colony Mobile Home Park, Eastex Oaks, El Dorado Mobile Home
  Park, Park at Stone Creek Apartments, Rocking R Ranch, Smith Road Area,
  Waterchase Apartments, Atascocita Pines Apartments, Atascocita Road Mobile Home
  Park, Classic Pines Estates, Canyon Village at Park Lakes, Canyon Gate at Park
  Lakes, Northbelt Forest, Alta Pine Forest Apartments, Sunset Ridge West, Timber
  Hills, and Sunset Ridge East.
- High school students living in the following subdivisions/apartment complexes are moved from AHS to SCHS beginning in August, 2009: Cascade at Fall Creek

Apartments, Chalet at Fall Creek Apartments, Fall Creek, Duessen Park Area, Lakeside Terrace, Lakeshore, Summer Lakes Ranch, Summerwood, Verde Woodson Park Apartments, and Waters Edge at Lake Houston.

CBAC Zoning Option 5 (Attachments 1 -4) provides enrollment relief for AMS and SMS. Enrollment at AMS (permanent functional capacity: 990) is projected to drop from a projected enrollment of 1853 in 2009-10 to 1108 in 2010-11; SMS (permanent functional capacity: 950) is projected to drop from a projected enrollment of 1193 in 2009-10 to 1003 in 2010-11. HMS (permanent functional capacity: 1110) is projected to increase from a projected enrollment of 1123 in 2009-10 to 1272 in 2010-11).

#### **Under CBAC Zoning Option 5:**

- Middle school students living in the following subdivisions/apartment complexes are moved from Atascocita Middle School to Middle School #8 beginning in August, 2010: Cascade at Fall Creek Apartments, Chalet at Fall Creek Apartments, Fall Creek, Duessen Park Area, Lakeside Terrace, Lakeshore, Summer Lakes Ranch, Summerwood, Verde Woodson Park Apartments, and Waters Edge at Lake Houston.
- Middle school students living in the following subdivisions/apartment complexes are moved from Humble Middle School to Middle School #8: Alta Pine Forest Apartments, Sunset Ridge West, Timber Hills, and Sunset Ridge East.
- Middle school student living in the following subdivisions/apartment complexes are moved from Sterling Middle School to Humble Middle School: Audubon Park (north of Bender Avenue), Atascocita Pines Apartments, Atascocita Road Mobile Home Park, Classic Pines Estates, Atascocita Acres, Atascocita Trace, and Blackstone Creek.

**Fiscal Impact Statement:** Additional funds will be required for the administrative and support staff, teachers, and HVAC at Middle School #8 and Summer Creek High School. Less funds will be required for HVAC at Atascocita Middle School.

Less teachers will be needed at Atascocita Middle School, Sterling Middle School, Atascocita High School, and Humble High School. Additional teachers will be needed at Humble Middle School.

The cost of transportating students to HHS, AHS, and SCHS will be approximately the same as the cost of transporting students to HHS and AHS. However, 8 additional buses (at a cost of \$15,000/year/bus) will be required to transport 11<sup>th</sup> and 12<sup>th</sup> grade students from the SCHS attendance area to HHS and AHS in 2009-10. It is anticipated that the cost will be less in 2010-11 since many seniors will drive to school.

Additional transportation costs of approximately \$5000 per year will be incurred due to the change in middle school boundaries.

The Texas Property Tax Code, Section 31.11(a) states "If a taxpayer applies to the tax collector of a taxing unit for a refund of an overpayment or erroneous payment of taxes and the auditor for the unit determines that the payment was erroneous or excessive, the tax collector shall refund the amount of the excessive or erroneous payment from available current tax collections or from funds appropriated by the unit for making refunds. However, the collector may not make the refund unless: (1) in the case of a collector who collects taxes for one taxing unit, the governing body of the taxing unit also determines that the payment was erroneous or excessive and approves the refund if the amount of the refund exceeds:...(B) \$500 for a refund to be paid by any other taxing unit;...(c) An application for a refund must be made within three years after the date of the payment or the taxpayer waives the right to the refund." Detailed information and rationale for each correction or refund has been documented in the attachment.

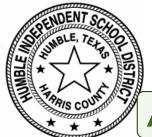

If the Board approves this consideration, Humble ISD will be in compliance with the Texas Property Tax Code. If the Board does not approve this consideration, the District will not be in compliance.

If approved, the total effect of the refund(s) will result in a reduction of total collections received of \$15,258.28. Overpayments are recorded as a liability on the general ledger upon receipt and, therefore, do not cause a decrease in recorded revenue when refunded.

Title: Comprehensive Annual Financial Report for the Year Ended June 30, 2008, Single Audit Report for the Year Ended June 30, 2008, and Awards for the Year Ended June 30, 2007, with Consideration of the Independent Auditors' Report included in the **Comprehensive Annual Financial Report** 

Consideration of the Independent Auditors' Report for the year ended June 30, 2008

**Superintendent's Recommendation:** The Superintendent recommends that the Board of Trustees approve the Independent Auditors' Report by Null-Lairson, P.C., included in the Comprehensive Annual Financial Report for the year ended June 30, 2008.

Background /Impact Information: The Independent Auditors' Report found in the financial section of the Comprehensive Annual Financial Report is issued on the government-wide financial statements, the governmental fund financial statements, proprietary fund financial statements, and notes to the financial statements. Although required by the Governmental Accounting Standards Board, Management's Discussion and Analysis and other required supplementary information are not a part of the basic financial statements and, therefore, have not been audited. The Comprehensive Annual Financial Report, provided under a separate cover, is included for the Board's information.

The independent audit of the financial statements is part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing the Single Audit require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. The Single Audit Report has also been provided under a separate cover.

The Comprehensive Annual Financial Report will be sent to the Association of School Business Officials International (ASBO) and the Government Finance Officers' Association (GFOA) for evaluation in their awards programs. The report will also be sent to Moody's and Standard and Poor's Corporations, institutional investors, and investment firms whose

portfolios or whose client portfolios include the District's bonds. The report will be posted on the District's website for other interested parties. The Humble Independent School District has received two awards for the fiscal year ended June 30, 2007: ASBO's Certificate of Excellence in Financial Reporting and GFOA's Certificate of Achievement for Excellence in Financial Reporting. These certificates of achievement are national awards and are the highest form of recognition in governmental accounting and financial reporting. Copies of these certificates are found on pages 10 and 11 of the 2008 Comprehensive Annual Financial Report. The District has received the ASBO award for twenty-two consecutive years (1986 – 2007) and the GFOA award for twenty-two years (1985 – 1995; 1997 – 2007). We believe our 2008 report continues to conform to the Certificate program requirements of ASBO and GFOA. **Fiscal Impact Statement:** Cost: □ Recurring ☐ One-Time Funding Source: ☐ General Fund ☐ Grant Funds (Specify): Fiscal Year: ☐ Bond Funds (Specify): Amendment Required? ☐ Yes ☐ No ☐ Other Funds (Specify): Attachments: Comprehensive Annual Financial Report – June 30, 2008 (Provided Under a Separate Cover)

**Superintendent's Recommendation:** The Superintendent recommends that the Board approve the retention of the Thompson & Horton LLP for legal services to the Board and the Humble Independent School District as needed.

**Background /Impact Information**: District policy BDD (Local) provides that "the Board shall retain an attorney or attorneys, as necessary, to serve as the District's legal counsel and representatives in matters requiring legal services."

On June 10, 2008, the Board approved the retention of a number of different law firms for use by the District on an as-needed basis, including the retention of Bracewell & Giuliani LLP for general legal issues and special education issues. On January 1, 2009, at least ten of the attorneys currently working with the Bracewell & Giuliani LLP's School and Public Law section will form a new firm, Thompson & Horton LLP. The new firm will offer the same range of school and public law legal counsel to school districts, but will not include attorneys who specialize exclusively in other areas of the law, such as tax, energy or intellectual property. The majority of the attorneys working on active school law matters for the District will be moving to the new firm, including Janet Horton, Philip Fraissinet, Chris Borreca, Lisa McBride and Maureen Singleton. Because of its size, the new firm of Thompson & Horton LLP will be able to offer lower hourly rates to its clients than it was able to charge while associated with Bracewell & Giuliani LLP; however, the quality of the legal services will remain the same. All of the core attorneys moving to Thompson & Horton have worked with the District in the past and has demonstrated to the District their professional qualifications to perform the legal services required by the District and the Board.

Therefore, the Superintendent recommends that the Board approve the retention of Thompson & Horton LLP for general legal services to the District. In making this recommendation, the Superintendent intends to keep the District's retention agreement with

| Bracewell & Giuliani LLP active for lega Horton LLP.                             | al services not otherwise provided by Thompson &  |

#### Humble Independent School District Investment Report - Glossary October 31, 2008

BA

Banker's Acceptances are short-term, noninterest-bearing notes sold at a discount and redeemed by the accepting banks at maturity for face value. Banker's acceptances generally are created based on a letter of credit issued in a foreign trade transaction. Banker's acceptances are essentially checks. They represent a bank's promise and ability to pay the face or principal amount on the banker's acceptance on the stipulated maturity date. Maturities for banker's acceptances are generally less than three months. Any banker's acceptance purchased by a public entity must have a stated maturity of 270 days or less, must be accepted by a bank organized and existing under federal law, and the short-term obligations of the bank must be rated not less than A1/P1. Similar to a treasury bill, a banker's acceptance typically does not have a coupon, is issued at a discount, and matures at par (face) value.

CP

<u>Commercial Paper</u>, an unsecured promissory note issued by a corporation with a fixed maturity of no more than 270 days. Most commercial paper is non-interest bearing and sold at a discount from par.

**FFCB** 

<u>Federal Farm Credit Bank</u> System provides credit and related services to farmers, ranchers, producers and harvesters of aquatic products, farm related businesses, agricultural cooperatives and rural utilities. FFCB System institutions are federally chartered under the Farm Credit Act of 1971 and are subject to regulation by a federal agency, the Farm Credit Administration.

**FHLB** 

<u>Federal Home Loan Bank</u> System, established in 1932, includes twelve Federal Home Loan Banks and their member institutions. The Federal Home Loan Banks are instrumentalities of the United States and operate under the supervision on the Federal Housing Finance Board.

**FHLMC** 

<u>Federal Home Loan Mortgage Corporation</u> (Freddie Mac) is a publicly held government sponsored enterprise created pursuant to the Federal Home Loan Mortgage Corporation Act of 1970. Freddie Mac's statutory mission is to provide stability in the secondary market for home mortgages, to respond appropriately to the private capital market and to provide on going assistance to the home mortgage secondary market.

**FNMA** 

<u>Federal National Mortgage Association</u> (Fannie Mae), a federally chartered and stockholder owned corporation, is the largest investor in home mortgages in the United States. FNMA provides funds to the mortgage market by purchasing mortgage loans from lenders. FNMA was originally incorporated in 1938 as a wholly owned government corporation but the Housing and Development Act of 1968 changed FNMA to a federally chartered

corporation.

#### **GIC**

A Guaranteed Investment Contract is a fixed-rate, fixed-maturity contract that is similar to a bond. However, unlike a bond, a GIC is always valued at par (face) value. This occurs because the company issuing the GIC usually is an insurance company that guarantees the investment by agreeing to pay the difference between the market value and the book value for the issue if the investor decides to sell it. A guaranteed investment contract may be structured in a manner similar to a flexible repurchase agreement, whereby the investor is able to draw down the balance upon written request throughout the life of the contract.

#### MARKET VALUE

<u>Market Value</u> is the current value of a security, which is determined by multiplying its par (face) value by the current market price. The unrealized gain or loss on a security can be calculated by subtracting the book value from the market value.

#### PURCHASE DATE

The date of the initial purchase / investment.

#### MATURITY DATE

The date when the principal amount of a security or debt becomes due and payable.

#### **MMMF**

Money Market Mutual Funds are a specific type of mutual fund that invests only in money market instruments (i.e., short-term debt instruments such as treasury bills, commercial paper, banker's acceptances, repurchase agreements, and federal funds) as defined and registered with the Securities and Exchange Commission. Money market mutual funds are regulated by the Investment Company Act of 1940 as 2a-7 funds. They strive to maintain a \$1 net asset value (NAV) for participants. There are three types of money market mutual funds: treasury, governmental and prime. Money market mutual funds are designed to provide both safety and liquidity.

#### **REPO**

A Repurchase Agreement is an investment agreement involving the purchase of a security with a simultaneous agreement to repurchase that security at a specified price and date. Repurchase agreements may be used to earn income on idle cash at or near the federal funds market rate. A holder of securities sells them to an investor with a repurchase agreement. The buyer is in effect lending the seller money for the period of the agreement. The terms of the repurchase agreement are structured to compensate the buyer. Dealers often use repurchase agreements to finance their positions. The exception occurs when the Fed is said to be doing repurchase agreements, in this instance it is lending money, i.e., increasing bank reserves. Repurchase agreements should always be governed by an executed PSA Master Repurchase Agreement between the investor and the dealer to reduce collateral risk.

SLMA Student Loan Marketing Association (Sallie Mae) is a stockholder-owned corporation established by an Act of Congress in 1972. Sallie Mae is the largest source of financing and servicing for education loans in the U.S.

State and Local Government Series securities are generally used in escrow accounts for advanced refund of bond issues and for certain other funds. Yield is restricted by the Internal Revenue Service's arbitrage regulations. SLGS are non-marketable securities issued by the U.S. Treasury directly to the issuer as a tool to manage yield-restricted bond proceeds. The interest rate on SLGS is selected by the purchaser (e.g., school district) based upon a maximum rate scale published daily by the U.S. Treasury. This allows the purchaser to structure an overall rate of return on the escrow that is less than or equal to the yield on the bond issue so that there is no violation of arbitrage restrictions. The most frequent use of SLGS is in advance refunding transactions in which the yield on the escrow being created to defease old bonds must not be greater than the yield on the refunding bonds sold to fund the escrow. By using SLGS, the bond issuer can structure an optimal structure in an escrow that yields less than the bond yield.
