

Informed Consent Form

Title of Project: “My early attempts at CPR”: Reviewing how novice clinical practitioners make sense of their first experiences of undertaking Cardiopulmonary Resuscitation.

Name of Researcher: Dr Peter J.M. Barton

This consent will remain with the researcher for their records

1. I confirm that I have read and understand the Explanatory Statement for the above study and have had the opportunity to ask questions. I am satisfied with the answers I have received.
2. I understand that my participation is voluntary and that I am free to withdraw up to commencement of face to face interviews, without giving any reason.
3. I understand that my interview will be tape recorded by the researcher and that this will subsequently be transcribed into written format. I understand that a copy of this transcription will be offered to me for comment and that these comments will be further considered by the researcher. I understand that if I decide to withdraw my consent after the interview itself that the interview and all data associated with it will be destroyed and not form part of the research.
4. I understand that all transcribed data will be anonymised and that no direct references to me will be made at any time including subsequent publication by whatever means are deemed appropriate to share the findings of the study. I understand that 4 years after the research or upon submission of the research as part of the researcher’s doctoral thesis, the original tapes of interviews will be destroyed by the researcher.
5. I understand that appropriate measures have been put in place to ensure the security of the data and that storage of the data complies with current guidance and best practice in the United Kingdom (where the degree course is based) and Australia and the state of Victoria (where the research is based).
6. I agree / do not agree (delete as applicable) to take part in the above study.
