I. Report proves that medicines approved by the FDA are killing 100,000 people per year.

This article truly verifies what Schnoebelen is saying in his newest DVD, "Medical Murder"!

NEWS BRIEF: "FDA accused of mass homicide of one million Americans each decade", Natural News, May 22, 2012

"In a recent report, investigative reporter Jon Rappoport uncovers the dirty truth that FDA-approved drugs kill at least 100,000 people every single year -- the FDA actually lists this figure on its own website -- and the agency is doing absolutely nothing about this disastrous trend."

Remember, the key hidden goal of government is to "increase the death rate" in this period leading up to the appearance of Antichrist! Let us review the quote from New Age author, William Cooper.

"Take control of the world ... to reduce ... the world to a safe level by a process of benevolent slavery and genocide ... The only alternative left to the world's ruling elite was to increase the death rate ... Dr. Aurelio Peccei of the Club of Rome ... advocated that a plague be introduced that would have the same

effect as the Black Death of history." (Bill Cooper, "Behold A Pale Horse", p. 49, 167)

"Increase the death rate" is the clarion call of the Illuminati!

"Such a change is rapidly coming and is regarded by some as death -- terrible and to be avoided if possible. It is indeed death, but it is benevolent and needed...For the progress of the soul of the individual and the soul of humanity, death is inevitable, good, and necessary." ("The Externalisation of the Hierarchy", Pages 114-115)

Both these Illuminati quotes promise that the death which will occur to masses of people will be "benevolent"! While we recoil at the idea that any murder can be "benevolent", we think with the mind of Jesus Christ, not Lucifer. The Devil hates all mankind and wants them all dead -- including those who serve him loyally -- because all mankind is "made in the image of God"!

Now, let us return to our featured news article. Note this quote comes from the FDA site!

"On a webpage entitled Why Learn about Adverse Drug Reactions (ADR)?, the FDA admits that 100,000 people die every single year as a result of taking FDA-approved pharmaceutical drugs. Citing figures from three different published studies, the figures also reveal that two million people a year suffer from serious ADRs, which include things like stroke, heart attack, and permanent neurological damage."

You can view the FDA page for yourself.

Just as Bill Schnoebelen says, the FDA lists in its literature going to doctors both the positive benefits of a drug and its side-effects. Listing the side-effects is 95% of the write-up on any drug! This reality is serious and should have us fleeing somewhere else to get treatment.

Back to this article, noting once again that these facts come from FDA sources!

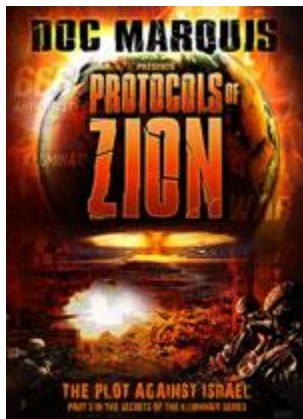

"Since these figures come from studies dating back to at least 1998, it is clear that the FDA is fully aware of the extensive harm being caused by supposedly 'safe' drugs ... Based on the figures presented by the FDA, at least 30 million people have suffered serious injury or death as a result of taking FDA-approved drugs just since 1998 when the first cited study was published. If you go back several more decades, it is clear that potentially hundreds of millions of people have been directly harmed by the FDA's 'negligent homicide'."

Doesn't it sound like our FDA has been following the "increase the death rate" mandate very successfully, don't you think?

"Since the FDA is the official gatekeeper of pharmaceutical drugs, it is directly responsible for the harm they cause. And yet agency officials have never, in any meaningful way, been held responsible for their crimes against humanity. And the U.S. Department of Justice (DOJ), as Rappoport points out, has failed to step in and pursue those responsible for peddling poison as medicine ... until the American people collectively wake up to this reality, we will continue to watch our friends, our families, and our children, which are the casualties of this ongoing terrorist attack, lay waste at the hands of Big Pharma and the FDA."

We thank the authors of "Natural News", for they have verified over the past several weeks virtually every point made by Bill Schnoebelen in this most important DVD, "Medical Murder: Architects of Madness".

Truly, only "Architects of Madness" would actually work out the "increase the death rate" plan envisioned by the Club of Rome!

II. Now the DEA is taking pictures of all vehicles traveling the Utah "Drug Corridor"!

NEWS BRIEF: "[DEA wants to scan all license plates on Utah's 'drug corridor'](#)", Salt Lake City Tribune, May 17, 2012

"Everyone driving on Interstate 15 in southwest Utah may soon have their license plate scanned by the U.S. Drug Enforcement Administration. The DEA and two sheriffs are asking permission to install stationary license plate scanners on the freeway ... The primary purpose would be to catch or build cases against drug traffickers ... kidnappers and violent criminals."

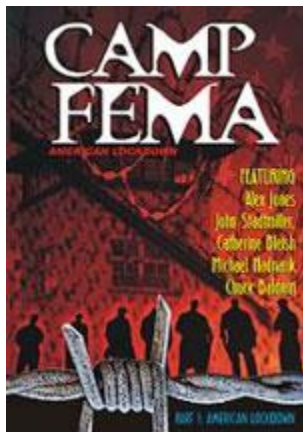

The data created by this new form of surveillance will be kept for two years -- at least that is the promise.

"That, however, wasn't the concern of skeptical legislators on the Law Enforcement and Criminal Justice Interim Committee. They were worried about the DEA storing the data for two years and who would be able to access it. 'It's not against the law to drive down I-15 from Utah to Nevada to gamble', said Utah Senate President Michael Waddoups, 'but there are a lot of Utahns that would be pretty embarrassed by that'."

Once law enforcement gets a toe in the door, they can soon kick the door wide open. A free society cannot long endure if individual citizens are not allowed anonymity of travel and activity. For this reason, a government intent upon subjugating their people one day will do everything in their power to set up a surveillance system which would track the movements of individual citizens.

You can be assured that license numbers of innocent Americans will be photographed and included in this database. A dictatorship must always maintain a huge database on the whereabouts of possible "dissident" citizens. Historically, whenever you see a government building a huge citizen database, that government is planning to change to a dictatorship.

We are obviously at this point now!

III. What kind of super-secret facility is the National Security Agency building in Utah?

Is this where all the data collected by photographing license plates on the Utah freeways going to be sent?

NEWS BRIEF: "[Bomb Threat at NSA's Massive Top-Secret Data Center Halts Construction](#)", Wired Magazine Online, May 21, 2012

"A bomb threat at the NSA's spanking new massive data center in Utah has led authorities to evacuate workers, according to the Associated Press. Bomb-sniffing dogs have reportedly been brought in to search for anything suspicious. Workers were evacuated around 11:30 Monday morning."

What kind of a facility is this, anyway?

"The facility, being built at Utah's Camp Williams, was the focus of an extensive recent Wired article written by NSA expert James Bamford. Under construction by U.S. Army Corps of Engineers contractors with top-secret clearances since January, the controversial, heavily fortified \$2 billion Utah Data Center is slated to be up and running by September 2013. Its purpose will be 'to intercept, decipher, analyze, and store vast swaths of the world's communications as they zap down from satellites and zip through the underground and undersea cables of international, foreign, and domestic networks', according to Bamford."

This intelligence gathering facility must have enormous capability.

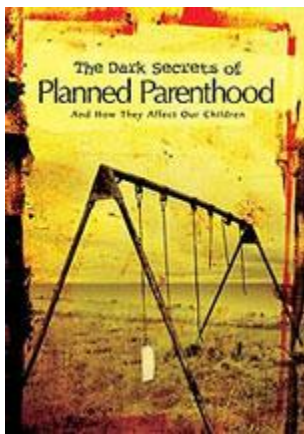

"Flowing through its servers and routers and stored in near-bottomless databases will be all forms of communication, including the complete contents of private emails, cell phone calls, and Google searches, as well as all sorts of personal data trails—parking receipts, travel itineraries, bookstore purchases, and other digital “pocket litter.” It is, in some measure, the realization of the “**total information awareness**” program created during the first term of the Bush administration—an effort that was killed by Congress in 2003

after it caused an outcry over its potential for invading Americans’ privacy."

I remember well when Congress "killed" the "Total Information Awareness" program. We warned that such a program was too precious to the Illuminati's plan for a Total Dictatorship for it to really be stopped by such a "minor" roadblock as a Congressional denial. Rather, based upon a tactic Hitler used repeatedly from 1933-1939, we predicted that this part of the plan would simply be renamed and given to a different department to manage.

Sadly, this proves to be the case. We created an indepth article on this "Total Information Awareness" program in late, 2002. Read full details in **NEWS1739**, entitled, "**We Can Now See The Hideous, Occult Face of President Bush's Homeland Security Agency, The USA Patriot Act and All Its Supporting Laws**".

The fact that "Conservative" President Bush started a program dangerous to our freedoms in 2002 and that this program is still being carried out by a "Liberal" President Obama ten years later is proof once again that there is no difference between Republican and Democrat Parties. The leaders of each party are equally committed to the Absolute Dictatorship of the New World Order.

IV. Planned Parenthood attacks Romney's plan to eliminate Federal funding nationwide for this bloody organization!

Why, this attack might do Mitt Romney some real good at the polls.

NEWS BRIEF: "Planned Parenthood's Cecile Richards: Romney Puts Women's Lives at Risk", The Daily Beast, May 20, 2012

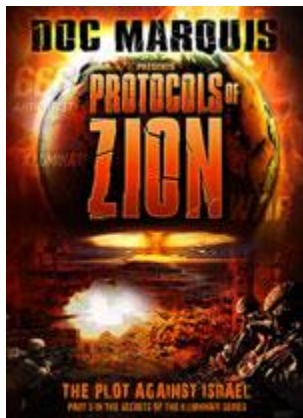

"Romney said in November that he wants to eliminate the nation's family-planning program, which was signed into law by President Richard Nixon in 1970 ... Romney said in March that, if elected president, he would 'get rid of' Planned Parenthood. He clarified his remarks to say he would end federal funding for Planned Parenthood."

I think that the abortion services, which are the heart and soul of Planned Parenthood, totally eradicate any good which their supporters might argue. Hundreds of millions of innocent babies have been brutally murdered within the womb -- and thanks to President Nixon in 1970.

We need to stop it and Romney is promising to do just that. His stance on this issue should garner his support from among the Evangelicals this November.

However, remember that Mitt Romney is as controlled by the Illuminati as is President Obama and former Presidents Bush, Jr., Clinton, Bush Sr., etc. He will be just as likely as these presidents to refuse to fulfill campaign pledges once he is in the Oval Office.

Barack Obama has failed to live up to campaign promises in so many instances that many of his die-hard supporters are simply going to sit this campaign out. Might Romney pull the same stunt? He could, especially since the Illuminati Plan calls for this type of behavior!!

The Protocols of the Learned Elders of Zion tells us that the citizen will not be able to trust in anything the leaders are telling them! Listen and be enlightened:

"The principal factor of success in the political is the secrecy of its undertakings: the word should not agree with the deeds of the diplomat." (Protocol #7, "Universal War)

Can you now understand why we cannot trust anything any

political leader promises at any time? They all lie.

They are all supposed to lie.

Once you get this understanding fixed permanently in your mind, you will have taken a huge step forward in properly discerning the times in which we live.

As a final note on this section, please take a few moments to read a most important article we posted six long years ago. This article is [NEWS2128](#), and is entitled, **"Properly Understanding One of the Most Important Illuminati Planning Documents -- The Protocols of the Learned Elders of Zion"**.

If you have been deceived into thinking that the Protocols have been proven a forgery and a fake, you need to read this article.
