The ERA has always accepted personal checks as payment for purchases of merchandise and attraction tickets, as well as many ERA sponsored events. If your check is returned due to insufficient funds, then you will be charged a \$6.00 bank returned check fee. You will be notified by a member of the ERA staff and your check will be re-deposited the following Friday. If it doesn't clear again, you will be charged an additional \$6.00 fee. Unfortunately, if you write a check that bounces, you will no longer be allowed to write checks again to the ERA. You may use cash or credit cards only for all future ERA purchases. If we do not receive payment for your bounced check (including the bounced fee payment(s), then you will not be able to purchase any items from the ERA store or participate in ERA-sponsored events. ## An Invitation to You From GA Retirees Association, Inc. (GARA)

(Not directly affiliated with General Atomics)

The members of the GA Retirees Association invite you to join us in a relaxed social organization where you can enjoy a tasty lunch, hear interesting speakers, and catch up with your GA friends. GARA offers four social functions each year. At our spring, summer, and fall luncheons we usually have a keynote speaker that discusses current world and scientific events. At our winter luncheon we hold our annual business meeting where we discuss the past year's accomplishments as well as approve the budget for the following year and elect next year's members to serve on the Board of Directors. The venue is changed each time to give members a variety of foods and surroundings. Recent venues include Tom Ham's Lighthouse, the Butcher Shop, and the Bernardo Heights Country Club. Recent speakers include Col. Len Hayes (USMC Retired) who spoke on "The Geopolitical Chaos in the Middle East" and John Caruthers who is with the FBI and spoke on "Cyber Security."

As an Association member you will also receive four quarterly Newsletters providing information about upcoming luncheons and speakers, news about the activities of your retired associates and items of special interest.

Take a moment to visit our GA Retirees Home Page at [www.garetirees.org](http://www.garetirees.org). On the Web page you will be able to read what is currently going on in the Association as well as read the recent Newsletters.

For more information, call John Neill, Treasurer and Membership chairperson at (858) 560-7569 or email him at [jmuirn74@yahoo.com](mailto:jmuirn74@yahoo.com), or fill-in and mail the form below, along with your \$10 yearly membership fee payable to "GA Retirees Association," 4219 Rueda Dr, San Diego, CA 92124. # ERA MEMBER SPOTLIGHT

Each month we will feature one ERA member chosen from member submissions or by request. If you would like to be spotlighted, submit your story, poem, article, or photo. Send your submission to the ERA Newsletter Editor, Michelle Metschel at [Michelle.Metschel@ga.com](mailto:Michelle.Metschel@ga.com) with "Member Spotlight" in the Subject Line. It will be at the Editors discretion who will be spotlighted each month.

***This month I want to introduce Ken Khumthong. Ken is an Engineer who works on the ITER Project in Poway. I've worked with Ken for three years and when I decided to start this page I knew he was going on a trip to Nepal / Kathmandu and thought this would be a great way to kick off the ERA Member Spotlight page. He agreed to be my guinea pig! Thanks Ken, great job!***

## **What made you decide to travel to Kathmandu by yourself?**

I've always wanted to experience a place that was a completely different world than what I was used to. I researched several places, including Patagonia, Columbia, and Africa. But the mountains of Nepal and all the incredible trekking routes in the Annapurna region interested me the most. In Kathmandu, I joined up with a group of three other travelers and three local guides. Together, we trekked the Ghorepani-Ghandruk trail over the next 9 days.

## **Do you consider it life changing?**

Absolutely. Almost everything about this trip was new and foreign to me. I had never traveled this far alone, nor did I have any trekking experience (I haven't even gone camping!) or knew the local language. But over the course of 15 days, I met amazing travelers from all over the world, laughed and shared life experiences with local guides, and hiked more miles than I ever thought I could. I chatted with local farmers and families who lived in simple homes, yet were some of the happiest and friendliest people I have ever met.

## **What were some of the most interesting things that you saw while you were traveling? What was the most interesting person you met?**

Every day on the trail presented something new and interesting to see but paragliding with the eagles in Pokhara has to be one of the most incredible views I have ever seen.

Our local guide was a Sherpa born in the villages near Mt. Everest. His knowledge of the region was impeccable; every trail, every side road, he knew intimately. We chatted for hours about his extensive mountain climbing certifications and experience. It was absolutely amazing to learn that, as a 23 year old, he had already climbed to Camp 3 on Mt. Everest multiple times as a porter.

## **During your trip, what was the hardest thing you had to overcome?**

I've had knee issues for as long as I can remember. Running long distances and playing high impact sports always left me with limping around the next day. I decided I wasn't going to let this hold me back anymore. I packed plenty of meds, heat packs, and compression braces. Although my knees did bother me at times, I pushed through and proved to myself that I could actually hike over 80 miles in 9 days.

## **What was your favorite part of the journey?**

Our local guide suggested we deviate from our planned route and make a detour to the Jhinu Hot Springs. Although this detour would cost us 8 extra hours of hiking, we all decided it was worth the trip. At this point in the trek, most of the group had not showered in over five days due to the cold weather (warm water is not readily available on the trail). Finally being able to take a shower under free flowing natural hot mineral water felt incredible.

## **Would you do this again? Alone or with someone?**

Although traveling alone can be scary and a bit lonely at times, there's also a certain freedom that comes with traveling alone. You get to stop when you want to, see what you want, and make detours whenever something interesting comes up. I would love to share this experience if a friend wanted to join me. However, I would also be perfectly happy with traveling alone again.

## **What did you learn about yourself?**

I found out I was capable of doing so much more than the limits I thought I had.

## **What's the biggest takeaway from the whole adventure?**

Don't be afraid to push the limits of your comfort zone. A friend of mine once said "life begins outside of your comfort zone". This quote never rang more clear for me than while I was standing on the edge of a cliff at 5am on a Tuesday morning, huddled with three people I had met just days before, watching the sunrise over the Annapura mountains, each of us thousands of miles away from home.

**POWAY**  
WEAPONS & GEAR  
**RANGE**

**Poway Weapons & Gear (PWG) is excited to offer special pricing to the General Atomics (GA) Community**

We believe that the more GA employees we can get to be a part of the Poway Weapons & Gear family, the stronger our organization will be and we all can benefit from the common respect we all share for gun ownership, training and rights.

**Poway Weapons & Gear is offering the following Membership packages to all General Atomics staff.**

# of Participants	G.A. Platinum	Savings	G.A. Gold	Savings	G.A. Silver	Savings
1-200	\$499	\$200	\$299	\$200	\$250	\$149
201-400	\$450		\$250		\$200	
401+	\$400		\$200		\$175	
Special offers	Half Price Locker Rentals	\$150+	Half Price Family	\$50	Half Price Family	\$50
	One Free Beginner Level Class	\$100+	60 Min On-Demand Class	\$70	30 Minute On-Demand Class	\$45
	Minimum Savings	\$450+	Minimum Savings	\$120	Minimum Savings	\$244

We want to encourage as many of the General Atomics staff to participate so we have an additional incentives that existing members will get as more and more new members join.

Once the number of members from the GA community crosses the first threshold of 201 members, PWG will, on the next renewal of any existing member, lower the renewal rate to the new threshold rate AND discount the difference they paid for their first membership!

Example: Employee A signs up for \$499 year 1. When year 2 comes up and Employee A has to renew, if the total members is more than 201, Employee A's renewal rate will be \$401 for that same Platinum membership! (New Rate of \$450 minus \$49 from higher prior rate paid at year 1)

**We want GA employees to be a part of our shooting community!**

## *Myths on “Why I Can’t Join Toastmasters”*

Many people put off professional development for various reasons. Below are just some of the typical rationales used to avoid joining Toastmasters. Do you see yourself among them? If so, we ask you to reconsider. You may be surprised to find that Toastmasters is not what you thought it was!

**Myth 1:** I don't need Toastmasters because I have been giving presentations for years.

**Reality 1:** For experienced speakers, Toastmasters is a way to enhance or improve your presentation style. You will get honest feedback about your approach and good suggestions for alternative techniques.

**Myth 2:** I don't need Toastmasters because I don't give speeches.

**Reality 2:** What about when your boss asks for a status report on your project? What about when you talk to someone on the phone to ask a question or give information? What about when you present an idea at a staff meeting? When you begin to consider your business and personal conversations as ‘presentations’, your focus will shift to present conversations in a more meaningful and professional way. Toastmasters will help you develop that professional edge.

**Myth 3:** I'm not smart enough. I'll be embarrassed. I can't think of anything to talk about.

**Reality 3:** Everyone is smart enough. Everyone has something that interests them which they want to share. You won't be any more embarrassed than you are about other things you discuss among friends. What do you enjoy doing for a hobby? Have you ever met anyone famous? Describe your job. Do you have any interesting characters on the family tree? Where did you go on your last vacation? You have a lot to say!

**Myth 4:** I'm a non-exempt employee. I'm only part-time. I'm a student.

**Reality 4:** We've had club members in all of these situations. The atmosphere at Toastmasters is very casual, supportive, and friendly. We like coming together for meetings and seeing each other.

**Myth 5:** Other Toastmasters members are already good speakers. I'd be nervous.

**Reality 5:** While there are good speakers in every club, everyone starts at the same place. Even the most experienced speakers started nervous. Toastmasters won't be able to eliminate that. What we can do, however, is help you discover a way to use that nervousness to your advantage. Many of the senior members continue to attend and give presentations because even though they have improved their speaking skills, there is always something new to learn from each other.

**Myth 6:** You have to attend every meeting every week.

**Reality 6:** You can attend as many meetings as you want however; there are minimum requirements needed to achieve certification and maintain good standing within a club. As a courtesy to other members and to get the full benefit from the organization, you should participate in meetings regularly either as a speaker or in one of the other rotational function roles. Just being there as an audience for the other speakers is vital to everyone's success!

**Myth 7:** Each speech is criticized.

**Reality 7:** Toastmasters is adamantly against criticism. Our keyword is ‘evaluation’ and we concentrate on helping each person understand what they are doing RIGHT and suggest alternatives for improvement on future presentations. This is a method to help you build your speaking toolkit. The more tools you are experienced with the more options you have in various communication situations.

**Myth 8:** Toastmasters is very time consuming.

**Reality 8:** The amount of time you give to Toastmasters depends on you and your needs. Giving presentations does require preparation, but you can use topics associated with work or home so content preparation is minimal. You can also space your presentations to meet your schedule. Other program functions such as evaluator and timer require no preparation. Table Topics and Toastmaster require some very limited preparation or none at all, that is if you can think fast on your feet!

**Myth 9:** I want to, but I don't have the time.

**Reality 9:** If you want to and need to, you can find the time. All members are busy with limited time but most find the time commitment for Toastmasters as a positive way to invest in themselves. We schedule our meetings during the lunch hour to minimize the impact on your daily routine.

**Come and see what Toastmasters is all about!**

**GENERALLY SPEAKING TOASTMASTERS CLUB**

*Wednesdays, 12:05-12:55*

*Room 2046, Building 17, GA-ASI Poway*

PredOrators, a Toastmasters Club that meets weekly during the lunch hour in the General Atomics - Rancho Bernardo facility, has had an eventful and entertaining 30 days. With different styles, objectives and speaking experience we've been honored to listen to aspiring astronaut and GA-ASI employee Josh Hardin's tongue in cheek speech on "Why We Don't Need NASA", a demonstration and speech by lunchtime guest/Toastmaster Fred Falk on his "Car Wash Body Workout" to better cardio and physical conditioning and GA's GQ Liu speaking about "If A Smart Phone Is Really Smart."

With opportunities to speak weekly and grow in a mentored environment, we are seeking to expand our noon hour club with both GA employees and the outside community. Give us a call or send us an email to: Brendon Thornton 858-762-5003 [brendon.thorton@ga-asi.com](mailto:brendon.thorton@ga-asi.com)  
Thom MacFarlane 858-485-0462 [thom@sibloans.com](mailto:thom@sibloans.com)

*Nana's Corner*

I want to say Happy Father's Day to all the fathers and grandfathers. I also want to acknowledge all the brothers and uncles who step in. And here's to the single moms who do it all.

In my house, we don't do sappy. Birthday cards are funny and sarcastic. Getting old is something to make fun of. And Father's day is a day where dad get's a present and lies around the house in his jammies playing on his phone if he wants.

So to all you Dads out there, here's to you: in your jammies, or grilling burgers, or riding bikes.  
It's your day - Enjoy!

We do this intentionally sometimes to vary the look of the newsletter but sometimes just due to space necessity. Ads are located and sized in the newsletter according to space availability. Ads with expiration dates will be removed when they expire.
10. It matters not how long the ad has been running in the past. If it is not renewed by the advertiser we do not renew it for you. We do not make it a policy to notify advertisers that the time frame is up.

## 2007 FORD EDGE SEL --- \$8,000 OBO

This Ford Edge has been a wonderful blessing to our family and now we are looking to share that with another considering our family expansion. With only 114,500 miles in 8 years, it has been well taken care of. The title is clean, and has passed SMOG check (2/26/2015). The tan leather interior is nearly flawless and the only "problem area" in the carpeting is a circular stain in the cargo area. The engine and drive train are all original and we have had no problems at all. A tow hitch is installed. There is a minor issue with the radio, the volume knob on the center is defective, but the steering wheel has a fully functional volume up/down toggle as well as other buttons that make it easy to switch music while driving. Integrated 6 disk changer is front loading in dash. The Keyless-Entry keypad is fully functional and so are the dual powered seats. We are hopeful that this vehicle will treat you as wonderful as it has treated us. We are asking \$8,000 OBO, if you would like to give it a look, give us a call and we would be happy to show you the Edge (with advanced notice of course, not a daily driver).

This fridge is just over a year old, but we have to sell it since we are moving and it won't fit. It has a few dents on the doors but everything else is perfect. It has the soda stream option and I just replaced the water filter at the beginning of April. Because of the dents, we got it on discount for \$3200. Looking for \$2000—may take offers. Available in May. Many pictures are available.
