# PETNOLOGY EUROPE 2015

The right place for the key questions and answers

Dear Delegates, Exhibitors and Visitors,

We are pleased to inform you about the second PET PASSION WEEK 2015, starting with the 18<sup>th</sup> PETnology conference to be held in Nuremberg/Germany on 9 - 10 November 2015.

Together with our partners, we combine the PETnology conference and the PETarena, PETnology's exhibition format for PET at BrauBeviale. The PET PASSION WEEK 2015 will take place in Nuremberg in the context of and supported by BrauBeviale.

## THE WORLD OF PET PACKAGING

This year marks the 15<sup>th</sup> anniversary of PETnology. The platform has established itself as an international industry meeting point for well over 800 companies - and counting - from the global PET market. PETnology provide a forum for the packaging and filling industry to discuss innovations and transforming networking into **PETworking**.

**More than 35 international speakers** will give you the opportunity to become involved in creating and discussing solutions to market challenges that could have a direct influence on packaging, machinery and your business.

We are looking forward to partnering with you,

Prof. Dr.-Ing. Otto Appel

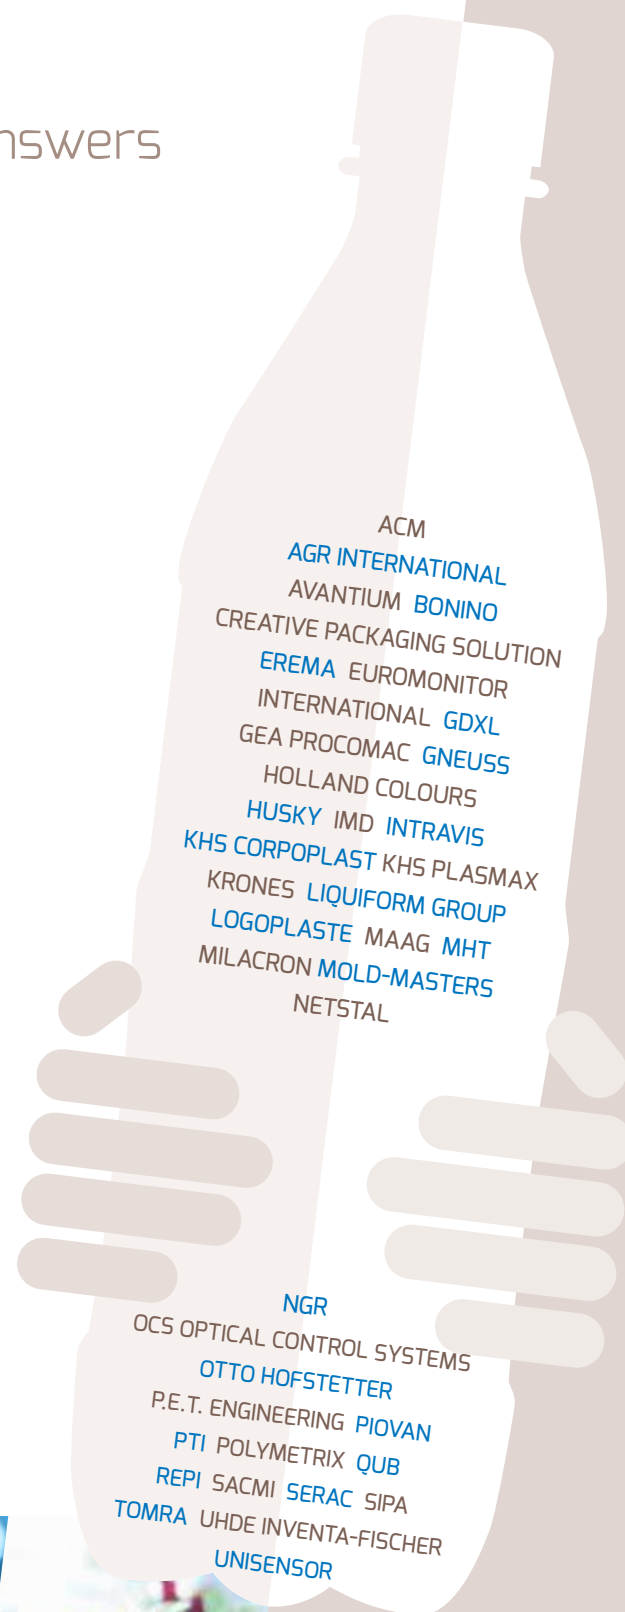

Barbara Appel

## CONNECTING COMPETENCE

Keeping PET Packaging Ahead

End-users and suppliers, transforming market challenges into technical solutions, are working hand in hand in order to improve production processes and to develop sustainable and economical PET packaging. The inspiration behind this is enthusiasm and passion on both sides. We at PETnology bring them together since 2000 under our motto *connecting comPETence*. It is this passion that made PET packaging the subtle difference within the packaging mix.

## HOTELS AND ROOM QUOTAS

We have reserved room quotas at special rates in different hotels. We recommend using the friendly service offered by NürnbergMesse for PETnology Europe 2015 by selecting the room of your choice here:
