World No-Tobacco Day

The Truth About Smoking

There are many reasons not to smoke. Smoking stinks—literally! It makes breath, hair and clothes smell like smoke. It's expensive. It dulls your sense of taste and smell. It raises blood pressure and causes shortness of breath. Some smokers can't stop coughing. And it kills. Each year a lot of people die from smoking-related illnesses. Cigarettes contain nicotine, a highly addictive drug. Nicotine is also a poison! No wonder smoking is linked to heart disease and cancer.

Say "no" to smoking!
