- South African Institute of Ecologists and Environmental Scientists

Mrs Janet Bodenstein holds a MA in Environmental Science. She is a senior environmental practitioner with 19 years experience in the environmental field. Janet is primarily responsible for managing consulting projects undertaken by the EEU as well as undertaking research on topics relevant to her work. She has extensive experience in all aspects of environmental assessment and management having managed or played a key role in over 53 projects in the last 19 years. She has a particular interest in reviewing environmental assessments or management plans. Janet's experience includes management of large scale EIAs (e.g. Namakwa Sands mines) as well as compilation of environmental management programmes (e.g. Coastal management programme for the Western Cape), Environmental Management Frameworks (e.g. EMF for Khayelitsha/Mitchells Plain) and State of Environment Reports (e.g. for Drakenstein Municipality). Janet is also involved in undertaking environmentally related research. She is a member of the South African Institute for Ecologists and Environmental Scientists and the International Association for Impact Assessment (IAIA). Janet was assistant project manager and report compiler for Eskom's nuclear power siting investigations in the Western Cape (see below).

Relevant Project Experience:

Mrs Bodenstein (previously Janet Barker) was integrally involved in Eskom's earliest nuclear siting investigations, acting as assistant project manager and report compiler for the Eskom Nuclear Site investigation Southern Cape region (Gansbaai to Agulhas) (1987 and 1989), and the West Coast (1991). Examples of reviews that she has undertaken are listed below:

- EIA for a mining and phlogopite processing project: 1997
- EIA for an industrial and science park: 1997
- Social Impact Assessment for a proposed Gold Mine: 1997
- Route selection and EIA process for R 300 biophysical and integrative components: 1997
- Environmental Management Plan for a proposed golf course: 1997 – 1999.
- EIA of the Outeniqua Pass to N2 link road: 1998
- Preliminary EIA of the Megapower project: 1998
- EIA for an oil exploration well off Namibia's coastline: 1998
- EMPR for a smelter (public involvement process): 1998
- EIA guidelines for tourism in SEACAM countries: 1998
- EIA for a water supply upgrading scheme, Voelvlei: 1998/9
- EMP for a shopping centre, Noordhoek: 1999
- EMPRs for Transhex mines: 1999
- EMP for developments at the Kenilworth Race Course: 1999
- Northern Cape Coastal Management Programme: 2004
