As part of the effort to protect human health and the environment the 30 -year old Guam Pesticide regulations were revised and approved on Sept. 1, 2010. PL 30-197, also known as Guam Pesticide Regulations, state:

"Basic Training (A) is required for applicants who are paid housekeeping workers including, but not limited to, cleaners and janitors in hotels, hospitals, apartment complexes or condominium complexes, nursing homes, or other non-private residents, and who apply general use antibacterial, antimicrobials, antifungal, disinfectants and other pesticides as part of their occupational duties.

The Train the Trainer session will allow for companies to identify individuals who will facilitate the Basic Training (A) and administer and grade the Open Book BTA Exam.

Note: There are no immediate plans within the next three years to host the Train the Trainer session. Please don't miss out on this beneficial opportunity
