

University of North Texas Department of Economics
Requirements for Receiving Academic Credit for Internships under ECON 4920

Credit for internships will be allowed under the following guidelines:

- The student must have passed all four required courses: Principles of Macroeconomics (ECON 1100) Principles of Microeconomics (ECON 1110), Intermediate Macroeconomic Theory (ECON 3560), and Intermediate Microeconomic Theory (ECON 3550) prior to start of the semester in which the student will receive academic credit for the internship.
- The student must have a GPA (in all economics courses) of 3.0.
- The student must register with the UNT Cooperative Education Office.
- It is the student's responsibility to meet with the Economics Internship Coordinator as soon as possible at the beginning of the semester and to meet again at regular intervals.
- A paper (summarizing the student's objectives and accomplishments in the internship) of approximately 2-4 pages will be due on or before the last class day before Final Exams begin.
- The department reserves the right to drop the student based on inadequate performance at any time.
- The student will receive credit for 3 hours of ECON 4920 and will receive a grade of either a Pass or Fail based on the student's performance. ECON 4920 will not count as economics credit, but instead will only count as an upper-level elective. The UNT Coop Office form "Employer Evaluation of Student Performance" will be used in evaluating the student, in addition to the 2-4 page paper.
