

**FOUNDATION**

**Digital Mammography Campaign**

Over the past year Groves Hospital's Diagnostic Imaging Department completed 1,812 screening mammograms and another 655 mammograms for diagnostic purposes. It's a known fact that early diagnosis is the key to survival, less aggressive treatment and ultimately a cure. Individuals that come to Groves Hospital deserve the latest technology for their mammograms. Our current film machine was installed in 2001 and now digital mammography is **the standard of care** in breast cancer detection.

Help us bring the first Digital Mammography machine to Groves Hospital with your support of this special event.

Thank you for your support. Receipts will be issued for donations of \$20 or more if the donor's name and address are complete and clearly printed.
