*Please note that this is not a complete listing of all the areas where your participation is needed. Your child's teacher will be in contact with you for special classroom activities such as special projects, field trips, etc. It is also important that all parents know that they are members of the Parent-Teacher Organization (P.T.O.). This group organizes fundraisers, enrichment activities and special fun events for students. Your involvement in P.T.O. is very important. Thank you for your ongoing help and support.*
