

Hear what our moms are saying:

I think that this survey is a good idea. I am glad that I got to be a part of it. I hope that my answers and comments help others that are expecting or are having a new bundle of joy.

I was very disappointed at my prenatal care, the way they didn't care about when I wanted to get started on my prenatal care and very judgmental on my situation of being a young mother.

I hope that those surveys you are mailing out really count as a tool to come out with helpful programs to benefit those women who really need support during their pregnancy...

Important Information About LAMB
Please Read Before Starting the Survey

- The Los Angeles Mommy and Baby Survey (LAMB) is a research project sponsored by the Los Angeles County Department of Public Health, Maternal, Child, and Adolescent Health Programs.
- We are asking women who live in Los Angeles County to answer the same questions. All of your names were picked by chance by a computer from recent birth certificates.
- It is your choice whether or not to do the survey. Whether or not you answer the survey will not affect your health care, immigration status, or any benefits you may be receiving.
- If you choose to do the survey, your answers will be kept private to the extent allowed by law and will be used only for research.
- Your name will not be used in any reports from LAMB. The survey has a number on it, so we will know when it is returned.
- Your answers will be linked to information on your baby's birth certificate to help us understand how your pregnancy experiences influence your baby's health. If you have had more than one baby, your answers may be linked to your other babies' birth certificates as well.
- Your answers will be grouped with those from other women. What we learn from this survey will be used to help mothers and babies in Los Angeles County.
- This is an ongoing study. We will keep your name and contact information so that we can contact you in a few years about participating in a follow-up study.

If you have questions about LAMB or if you want to answer the questions by telephone, please call 1-866-706-LAMB (1-866-706-5262)

Frequently Asked Questions about LAMB

What is LAMB?

LAMB (Los Angeles Mommy and Baby Survey) is a project sponsored by the Los Angeles County Department of Public Health. Our survey asks mothers who recently had a baby questions about things that happened around the time of their pregnancy. Your answers will help us learn more about ways to improve the health of future mothers and babies.

Why should I participate in this survey?

LAMB is a very important survey that will help improve the health of future mothers and babies. The survey will help us to better understand and meet the health needs of Los Angeles County mothers and babies. Your answers will help us to improve services for women, infants, and families. To get a better overall picture of the health of mothers and babies in Los Angeles County, we need each mother selected to answer the questions.

Some of the questions do not seem related to pregnancy—why are they asked?

Many things in a mother's life may affect her pregnancy. These questions try to get the best picture of things that happened before, during, and after pregnancy. The questions also allow us to group you with other women. Although some of the questions may be personal, please remember that all your answers will be kept private.

How was I chosen to participate in LAMB?

Your name was picked by chance, like in a lottery, from the state birth certificate registry. You are one of a small number of women who were chosen to help us in this study.

Will I receive results of the survey?

If you would like us to send you the results of the survey, please tell us at the end of the survey.

What if I want to ask more questions about LAMB?

We will be happy to answer any other questions that you may have about LAMB. Please call us at 1-866-706-LAMB (1-866-706-5262). If you prefer to complete the survey on the telephone, please call us at the same number.
