

19th Esri Malaysia User Conference

Esri Malaysia is pleased to announce its 19th Esri Malaysia User Conference here in Malaysia at Putrajaya International Convention Centre (PICC) from 20 to 21 October, 2015.

Introduction

For two days in one place, you'll have everything Esri at your fingertips. It's the ultimate event for anyone working with GIS. The breadth and depth of sessions for all types of professionals, the opportunities for hands-on learning and the many ways to cultivate skills and relationships make it a must-attend event for all GIS and IT enthusiasts. This is a great resource area where you can see GIS demonstrations from Esri experts from around the globe. Delve into everything GIS including product upgrades and training.

Why Attend?

- Find out everything you need to know about latest developments in the ArcGIS platform; from productivity and sharing, to spatial analysis and imagery.
- See how to best leverage your current GIS investments.
- Learn from industry peers who are tackling challenges similar to your own.
- Get updates and direction that will help your organisation make better decisions.
- Gain tips, tricks, and tools to launch, update, and enhance your GIS projects.
- Connect with Esri staff including product and industry specialists, instructors, and the technical support experts.
- Be part of an inspired global community striving to design better world.
- Gain tips and tricks for telling better stories through maps.

Who Should Attend?

Attendees range from new users of Esri's GIS software to seasoned GIS professionals, to decision-makers and business owners. The event spans industries and borders.

All Esri technology users are encouraged to be part of the 2015 Esri Malaysia User Conference:

- GIS Managers
- GIS Analysts
- GIS Educators and Trainers
- Application Developers
- System Architects
- IT Professionals
- Decision-Makers
- Project Managers
- Esri Business Partners
- Industry Analysts
