VSC-102   (w/o Audio)
### Professional amplifying video splitter w/ on/off control

Product Overview

ConnectPRO currently offers a variety of Video Splitter choices, and all of them feature premium quality, exceptional resolution, and great performance. The newest line of splitters provides an exceptional experie allowing individual ports to be controlled, turned On or Off without disrupting the output to the other video outputs.   The VSC series is a line of manageable Video Distribution Amplifiers with port-level On/Off contro models boast **400MHz** video bandwidth which can support high resolutions and longer distances
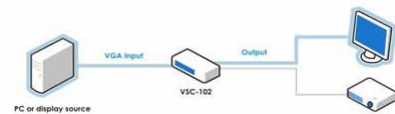

Application

  - **Video presentations and demonstrations**

  - **Video exhibits and tradeshow displays**

  - **Monitor testing and burn-in**

  - **Business meetings and client pitches**
  - *__Video Splitters application connection diagram__

Features & Benefits

➢ **Channel port selectable (all on/off or individual on/off)**
➢ **Duplicates one VGA video input to multiple outputs**
➢ **Effective transmission distance: 65M (210 ft.)**
➢ **400 MHz with support for high resolution up to 2048 x 1536**
➢ **Applicable to VGA, SVGA, Multi-Sync monitors**
➢ **Cascaded operation for increased VGA output**
➢ **Optimized port for DDC compatible output**
➢ **Channel on/off control via push button, I.R. or serial port**
➢ **Video presentations and demonstrations**
➢ **Video exhibits and tradeshow displays**
➢ **Monitor testing and burn-in**
➢ **Business meetings and client pitches**
