- A. **Sign Up Page:** Please add the following guidelines in the question box as we discussed:

Comments:

1. Allow apostrophe in the provider name
2. Allow apostrophe in the City Name
3. It is not necessary that all users will maintain a standard, you can impose the standard/formatting for Phone, E-mail and Website; however will be hard for rest of the fields. Therefore you need to run the PHP code to maintain a standard for the Contact Name, Provider Name, Street Address 1, City's name. The standard will be, first letter will be capital for each word for these fields (i.e. Contact Name, Provider Name, Street Address 1, City's name)

B. **Editable Polygon:**

1. The Polygon is not editable, so Radha you mentioned you will explore the different options. One option we discussed, right mouse click will eliminate the last step or changes.

C. **Same Zip Code multiple Providers:**

1. It is done and implemented.

D. **Forgot Password:**

1. Radha will implement this.
 - a. If USER forget the password, will request a new password, and the system will generates a random password, and send to the user, and user will log into the account with the system generated password, and after successfully login, the user can change the password.

E. **Data Export:**

Admin will be able to export "Transit Provider Details" data from the CTAI application in .CSV format, and data will divided by provider type.

F. **"Add a Warning"**

Once user try to delete a service area the system should generate a warning before user deletes the service area

G. **Non-Fixed Route Details:**

The Non-fixed route provider's details are not available once user selects the service area. However, the provider's details are available for the fixed route transit provider.

H. **What type of payment do we take?**

Eliminate check box, and add radio button.

I. **Show multiple service area from single or multiple service providers.**

I will discuss with client tomorrow, and provide you feedback.
