

CHESTERFIELD MEDICAL PARTNERSHIP

The NHS is moving into a new era of information sharing. Locally we have three areas of information sharing which require a decision from you as a patient.

The Summary Care Record (SCR)

You may recall receiving a letter on the subject of the National Summary Care Record (SCR). Your SCR contains up to date information relating to your medications, any allergies and adverse reactions you have, only. You will always be asked by the clinical staff for your permission to view your SCR. (You may have already opted out of this service).

I have decided to opt in..... ☐

Enhanced Data Sharing Model (eDSM)

This is a new local information sharing initiative for Healthcare units using the same computer system as your GP Practice (SystemOne). With your permission it allows services such as District Nurses, Physiotherapy and some hospital departments, to share your **detailed** GP record. It also allows the GP to view what other units record about you, with your consent. We have 2 questions for you.

Are you happy for

Information on our computer system to be seen by Clinicians treating you in other health care settings who use the same system?

YES ☐ NO ☐

Are you happy for

This practice to view the information recorded about you at other healthcare settings who use the same system?

YES ☐ NO ☐

care.data

The law requires us to upload your personal data to the Health & Social Care Information Centre (HSCIC) unless you have specifically asked us not to have asked us not to and so that we can show to the HSCIC that we are complying with the law, we now ask you to sign this form confirming your choice not to have your data uploaded. During 2014 a new research and commissioning data collection initiative will begin initiated by the NHS Health and Social Care Information Centre (HSCIC). It is intended this information will help shape future service delivery and improvements within the NHS. It will be automatically collected from GPs computer records in a secure and anonymised format. You can register your objection to your information being used in this data collection. If you would prefer not to be included in this initiative you can register your objection by ticking the box and completing the information below

I would like to register my objection to my information being used by the care.data initiative... ☐
