QUARRY BAY SCHOOL “Eco-Friendly Bags”

Background:

The development of the NEW range of Eco-Friendly School Bags has taken just over a year. During this period careful attention has been given to the materials used, design and graphics. All the bags have gone through a four month durability test (tested by students of both upper and lower school).

All these NEW bags are made from RPET material (i.e. recycled PET water bottles). Each Bag is unique and states the number of bottles used to produce it.

We are grateful in having received the support of the QBS Green Team (led by Mrs Kate Ringrose) during this process. The Green Team has endorsed each bag with the NEW QBS Green Team logo, and are assisting in generating awareness within the QBS community.

We hope to support Quarry Bay School towards:

“Teaching and Empowering QBS Students to Value
and

Sustain their Natural Environment,
and Make a Difference!”

QUARRY BAY SCHOOL “Eco-Friendly Bags”

The Bags are a choice of both
QBS Staff and Students.

Green Team student members give their comments:

“What great progress for the school.
When I leave year 6 to go to Year 7 I can pass it onto
my brother, sister or a friend.”

Isabella 5J

“It represents the school in a special
way. We’re the first school in the ESF
possibly the whole of Hong Kong to
do this!”

Felipe 6Y

“I have more respect for my school.
It has risen to a great environmental
challenge.”

Sofia 4S

“I feel good that our school
isn’t wasting resources.”

Zach 5L

“I’m proud to be a QBS Green
Team member because we always
try to improve our school.”

Renee 5M

QUARRY BAY SCHOOL "Eco-Friendly Bags"

"We're proving to the world that we're being environmentally friendly. We are the first school?"
Robbie 4C

"Being in the Green Team makes a difference – we hope to inspire you to."
Natalie 6T

"Being in the Green Team and being a representative is a real privilege, we get to make QBS greener."
Joshua 5J

"I'm proud to be a QBS Green Team member because we've inspired QBS to be environmentally friendly. I wonder which school will be next?"
Jake 5H

"It makes me think—Wow! Anything is possible. You can make anything out of garbage."
Noah 6K

"I'm recycling – so should you!"
Hayley 4Y
