6. Description of Contents of Document: (Provide a one paragraph description, not to exceed 500 characters.)			
<p>Recently there has been a lot of discussion, for passive components, in having to add an EFUP logo, also known as EPUP, to their product, in order meet China RoHS label requirements. In fact passive component manufacturers are not required to add an EFUP label and are instead required to provide the EFUP date to the EIP so the EIP can appropriately label their product accordingly, per China RoHS labeling requirements. The purpose of this bulletin is meant to briefly discuss the EFUP (Environmentally friendly use period) label and the EFUP timeframe for passive components for those devices which may or may not exceed the banned substance levels for lead (Pb), mercury (Hg), cadmium (Cd), hexavalent chromium (CrVI), polybrominated biphenyl (PBB), and polybrominated diphenyl ether (PBDE), as specified in China RoHS.</p>
