**Value of .25 Mill in General Fund**

Revised per 2nd FEFP Calc 7/16/19

	<u>7/16/2009</u>	<u>7/2/2009</u>
Statewide average per student .748 mills	446.65	440.48
Statewide average per student .25 mills	149.35	147.22
Osceola Tax Roll	22,933,780,727	22,933,780,727
Osceola Value of .25 mills	5,446,773	5,446,773
UWFTE	50,656.72	50,656.72
Osceola value of .25 mills per student	107.52	107.52
Compression per student	41.83	39.70
Compression adjustment	<u>2,118,971</u>	<u>2,010,871</u>
Value of .25 mills	5,446,773	5,446,773
Total .25 mills plus compression	<u><u>7,565,744</u></u>	<u><u>7,457,644</u></u>

Considerations:

1. Fund balance. Current estimate is that fund balance will decline approx. \$3m in 2008-09 and \$5.5m in 2009-10 without the additional .25 mills. No step is included in current budget.
2. Compression. If 25% of the districts levy .25 mills, compression may cause prorata reduction in FEFP, potential \$200,000.
3. Tax roll. Osceola tax roll is down by 17.28%. State predicted 8.23% decline. If this is statewide trend, then the value of discretionary millage could decline by potential \$2.1 million.
4. Federal Stabilization. We are receiving \$27.5m for 2009-10 and again for 2010-11. Approx \$21.8m of this is being spent on salaries, equivalent to 363 non-core teachers. This funding expires after 2010-11.
5. Timing of vote. If millage is levied by supermajority vote this year, then the revenue will be realized for the 2009-1 and 2010-11 fiscal years. Continuing beyond 2010-11 will require referendum in general election. We believe the authority to levy the additional millage does not expire, but we have not received definitive opinion. Legislature could modify authority.

**6. Primary uses of .25 additional millage:**

- 1. Teacher Compensation (save jobs).**
- 2. Maintain fine arts, physical education, and career and technical programs.**
- 3. Continue teacher and staff training programs.**
- 4. Reestablish summer programs.**

**7. Capital plan. Items that have been removed from the capital plan due to reduced revenues:**

1- HVAC Denn John Middle	200,000
1- Communications Retrofit Neptune	600,000
1- Backup Generator for Servers	350,000

## Budget Conventions

2009-10

### **Salary Budgets**

Salary budgets include salaries, FICA, retirement, and board insurance contributions for all allocated positions. There must be an allocated position for anyone to be hired and paid. At schools, the cost per allocated position is based on the average cost for employees in that position in the prior year. For departments, the cost per position is generally the actual cost of the employees filling that position in the prior year. Bus drivers and bus attendants are budgeted at average cost per person in the prior year, including overtime.

Salary budgets are controlled by the budget department and cannot be changed by schools or departments.

### **Non-Salary Budgets**

Schools are allocated non-salary funds on a per student basis. These are budgeted at the school's discretion to cover non-salary operating costs of the school and may be moved between accounts as necessary. Allowable expenses include supplies, equipment, substitutes, overtime, travel, and repairs, and communications.

Departments are allocated non-salary funds on a per employee basis. These are budgeted at the department's discretion to cover non-salary operating costs of the department and may be moved between accounts as necessary. Allowable expenses include supplies, equipment, overtime, travel, and communications.

Other non-salary budgets are controlled by project number and restricted for designated purposes. These budgets are controlled by the budget department and cannot be changed by schools or departments. Expenses from these budgets are reviewed to ensure that they are for the designated purpose. Examples of these non-salary budget items are the reading categorical, instructional materials categorical, supplemental academic instruction categorical, and line items.

### **Overtime**

Overtime is recorded in three different categories:

- Straight overtime for hours worked between the employee's regularly scheduled hours per week (37.5 hours for most employees, 25 hours for bus drivers and attendants) and 40 hours per week.
- Extra pay for time worked in a different assignment than the employee's normal job.
- Time and one/half overtime for hours worked over 40 hours per week.

Overtime is normally not included in salary budgets, but is paid from the non-salary allocations of schools and departments. The average salary for bus drivers and attendants, however, includes overtime and is included in the original salary budget. Appropriations in the transportation salary budgets will be moved to non-salary overtime accounts during the year by the budget department to cover actual overtime charges.

### **Reimbursements**

Reimbursements frequently occur within the budget when salary or non-salary expenditures originally occur in one fund or department and are later charged to another fund or department either directly or as an overhead cost allocation. In these cases, reimbursement accounts are normally used in the fund or department where the original charge occurred in order to maintain tracking of the original cost. Such costs reimbursements would allow the gross expenditures in a fund or department to exceed the budget by the amount of the expenditures reallocated to other funds or departments. The net expenditures in every fund or department will be covered by the appropriations approved by the Board. Reimbursements typically occur, for example, in the transportation department for field trips charged to schools, in the facilities and maintenance department for costs later charged to capital projects, and in other departments for overhead costs allocated to charter schools.
