**"Improving Port Richmond to help you
focus on your business"**

Dear Richmond Corridor Association Member,

Enclosed you will find several important documents; the first is a survey form that was created for us to better know your company. We will use this survey to create a handbook for our membership. The second is an outline of calendar dates, times, and locations of our general meetings. I personally would ask that either you or a representative of your company attend these meetings. It is critical that we have the input of our members in attaining our goals in 2014. Finally, we have enclosed our 2014 membership invoice. With the good weather on the horizon, now is the time to get active with our community. Please join us.

What is the Port Richmond Corridor Association?

The RCA was established to unite businesses within a geographical location to improve and secure the industrial area. Through a joint effort with Delaware River Port Authority (DRPA) and Urban Industry Initiative (UII) the following improvements were established.

What do I get by joining?

- Growth of membership will bring collective power in lobbying for issues of land use and occupancy certificates
- Land use restructuring and zoning
- Utility infrastructure
- Street maintenance
- Transportation
- Crime, vandalism, and dumping
- Increased security and value in keeping and attracting employees
- Published member vendor directory
- Scheduled business card exchanges
- Open monthly business meeting

Sincerely,
Larry Dooling
President, RCA

2013 RCA Officers:
Larry Dooling, President
George Groves, Vice President
Mark Kochanowicz, Interim Secretary
Bruce Richman, Treasurer
