

McGill Athletics seeks Production Crew!

McGill Athletics & Recreation is looking for outgoing sports-enthusiasts interested in gaining communications experience. A communications background is not required; however, an outgoing personality, team attitude, and the desire to have fun are mandatory!

The **Production Crew** will stream varsity home games on SSN Canada's online network (see <http://www.ssncanada.ca/> for last year's games). We are looking for camera people, as well as on air talent for play-by-play and colour commentary. The production crew will work on-site doing video coverage of games on game day, as well as some pre and post- game interviews. The team will work together planning, producing, and editing the video. Each position will consist of approximately 6-10 hours of work per week. Please see below for detailed job descriptions.

Camera Operators

Duties and responsibilities: Camera operators should be knowledgeable about a wide range of technological equipment, as they will be in charge of all equipment (camera, cables, microphone, etc). They will operate the camera as well as assist with video editing. Prior experience as a camera operator and movie editing software (especially Wirecast) is an asset.

Commentators

Duties and responsibilities: The commentators will be responsible for researching teams prior to game day and writing their own script for interviews and commentary. They should have a strong base of sports knowledge, and a vibrant, enthusiastic personality. Commentators will specialize in one or two sports throughout the year.

Please fill out the application form on the following two pages and send to alyson.mcphee@mcgill.ca, along with your CV to apply.

Production Crew Application Form:

Name:

Year: U

Faculty:
