LEGISLATIVE CHANGES

The following is a brief description of selected legislative changes. A copy of all legislative bills is available at <http://billstatus.ls.state.ms.us/>.

Senate Bill 2833: This bill amends Miss. Code Ann. §27-7-22.32. Before this amendment, a person adopting a child was allowed to take up to a \$2,500 credit against Income Tax for the expenses incurred in adoption. But an exemption could not be taken in the same year the adoption credit was taken for the adopted child. The bill removes this restriction to allow both the exemption and credit. The amendment went into effect January 1, 2013.

AD VALOREM TAX CREDIT CARRYFORWARD PROVISION

Any unused ad valorem tax credit claimed under Miss. Code Ann. §27-7-22.5 can now be carried forward for five consecutive years from the close of the tax year in which the credit was earned. The change went into effect July 1, 2012.

MARRIED AND MARRIAGE AS USED IN MISSISSIPPI INCOME TAX LAW

Under the Constitution (Art. 14, § 263A) and law (Miss. Code Ann. § 93-11-1(2)) of this state, we are prohibited from treating same-sex couples as married, even if married in a state that recognizes same-sex marriages. As an agency of this state, we are required to comply with the Constitution and laws of this state unless and until repealed by the Legislature or declared invalid by a final order of a Court. To date, the Constitutional provision and statute barring recognition of same-sex marriages is still the law in this state and has not found to be invalid by any Court.

excess of \$8,300 plus \$1,500 for each dependent.

- Resident working outside of the United States – you must file a return and report the **total** gross income if you are a Mississippi resident employed in a foreign country on a temporary or transitory basis. If you qualify to exclude foreign wages for federal purposes, enter the amount as a deduction on schedule N and attach the Federal Form 2555.
- Deceased taxpayer – if you are a survivor or representative of a deceased taxpayer, you must file a return for the taxpayer who died during the tax year or before the 2013 return was filed. For more information on the filing requirements of a deceased taxpayer, see the Death of a Taxpayer Section of this booklet.

AM I A RESIDENT OR A NON-RESIDENT?

An individual who maintains a home, apartment or other place of abode in Mississippi, or who exercises the rights of citizenship in Mississippi by meeting the requirements as a voter or who enjoys the benefits of homestead exemption, is a legal resident of the State of Mississippi and remains a resident although temporarily absent from the state for varying intervals of time. An individual remains a legal resident of Mississippi until citizenship rights are relinquished and a new legal residence is established. Changes in driver's license, vehicle tags, voter registration, and property taxes show intent to change legal residence.

What is my status if I moved into or out of Mississippi in 2013?

You are considered a part-year resident and must file the Non-Resident and Part-Year Resident Return, Form 80-205. You will be taxed only on income earned while a resident of Mississippi and you will prorate your deductions and exemptions.

WHEN AND WHERE SHOULD I FILE?

Calendar year returns must be filed no later than April 15th annually. Fiscal year returns must be filed no later than the 15th day of the 4th month following the end of the fiscal year. Please write the fiscal year period and the words "**Fiscal Year Return**" in bold letters on the front of the return.

Need more time to file your return?

If you will receive a refund or will not owe any additional tax, Mississippi will allow you the same time to file your return as allowed by federal. However, if you owe additional taxes, you must remit the tax due with Form 80-106, on or before the due date of the return.

The authorized extension of time to file does not extend the time for payment of tax due. Interest and penalty will apply on any underpayment of tax. See the Interest and Penalty Provisions Section of this booklet for more information.

The return should be mailed to:

LINE ITEM INSTRUCTIONS

FORMS 80-105 AND 80-205

The below instructions serve as a general guide for filing your 2013 Mississippi Resident Individual Income Tax Return (Form 80-105) or your 2013 Mississippi Non-Resident or Part-Year Resident Individual Income Tax Return (Form 80-205). Line item instructions are generally the same for both the Resident and the Non-Resident returns; however, the line numbers differ in some cases. The instructions are keyed to the line numbers on the Resident return. However, specific instructions for the Non-Resident or Part-Year Resident returns are in the Non-Resident and Part-Year Resident Section of this booklet.

TAXPAYER INFORMATION

Please make sure that you write in your name, address, and SSN. If you are married and filing a joint, combined, or separate return, write in the social security number for both you and your spouse. If a spouse died in the tax year, enter the surviving spouse as the first taxpayer. Enter the code corresponding to your resident county on page 1 of the return (see Appendix for a list of the codes).

FILING STATUS AND EXEMPTIONS

Mark an 'X' in the box applicable to your filing status on the last day of the tax year. After checking the applicable filing status, enter the corresponding dollar amount of exemption on page 1, line 11, (the dollar amount is shown next to the filing status you selected). The exemption and standard deduction for each filing status for 2013 are listed in the table below.

Filing Status	Exemption	Standard Deduction
Married – Filing Joint or Combined Return	\$12,000	\$4,600
Married – Spouse Died 2013	\$12,000	\$4,600
Married – Filing Separate Returns	\$6,000	\$2,300
Head of Family	\$8,000*	\$3,400
Single	\$6,000	\$2,300

*Note: The additional \$1,500 will be allowed in the calculation of the dependent exemption amount entered on line 10.

Filing Status for Married Persons

Married persons may file tax returns in any of these three methods: 1) joint, 2) combined, or 3) separate. Choose the method which results in the least amount of tax.

- 1) A joint return is usually completed when only one spouse has income. Place all income, deductions, exemptions, etc. in Column A (Taxpayer).
- 2) A combined return is completed when both spouses have income. Place one spouse's income in Column A (Taxpayer) and the other spouse's income in Column B (Spouse). The exemptions and deductions may be divided in any manner you choose. If only one spouse has income, this income may not be split between husband and wife.
- 3) Separate returns (two returns) are filed when each spouse completes his/her own return. Each spouse reports his/her own income and deductions on a separate return. BOTH spouses must file returns even though one spouse may have little or no income. If one spouse elects to itemize deductions, both must itemize. If one spouse elects to use the standard deduction, both must use the standard deduction. Each spouse is entitled to only one-half of the total exemption authorized. Each spouse must list the other spouse on his/her return.

Standard Deductions & Exemptions for Married Persons

- Married - Filing Joint or Combined Return – The standard deduction (\$4,600) and the authorized exemption (\$12,000) may be divided between the spouses in any manner they choose when filing a combined return.
- Married - Filing Separate (Two Returns) – each individual must claim the authorized exemption (\$6,000) and the standard deduction (\$2,300). Any unused portion of the standard deduction (\$2,300) or the exemption (\$6,000) by one spouse on his/her separate return may not be used by the other spouse on his/her separate return.

Line 1: Married – Combined or Joint Return

Enter \$12,000 on line 11

A married individual is a person who was legally married on the last day of the tax year. The filing status exemption for married individuals is a joint exemption and in the case of husband and wife filing a joint or combined return (one return), the exemption may be claimed by either or divided between them in any manner they choose to the extent that the total amount of exemption claimed by husband and wife does not exceed the total exemption authorized (\$12,000). Mississippi law does not recognize common law marriages entered into after April 5, 1956.

Line 2: Married – Spouse Died in 2013

Enter \$12,000 on line 11

Use this filing status if your spouse died in 2013 and you did not remarry in 2013. Report your spouse's income before death and your income for all of

2013. Write "**Deceased**" and the date of death beside spouse's name on the return. **List surviving spouse's name and SSN first when completing form.**

Line 3: Married – Filing Separate Returns

Enter \$12,000 on line 11

Mississippi law provides that married individuals filing separate returns (two returns) shall divide equally between the two spouses the total exemptions authorized. If the box on line 3 is checked, the only deduction you may claim for exemptions is one-half of the amount indicated on line 12. Checking the box "Married - Filing Separate Returns" implies that **both** husband and wife will file separate returns regardless of the amount or source of income of each. Any unused portion of the exemptions on one return may not be claimed on the other. If you elect to file separate returns, enter the Spouse's Name and Spouse's SSN in the heading of the return.

If this computation produces an inequity, it is suggested that married individuals check the box on line 1 and file one combined return, so the filing status and additional exemptions may be divided between the spouses in any manner they choose. **If you elect to file jointly, enter the Spouse's Name and Spouse's SSN in the heading of the return.**

Line 4: Head of Family

Enter \$8,000 on line 11

A Head of Family individual is a taxpayer who is single and who maintains a household which constitutes the principal place of abode for himself or herself **AND** one or more dependents. A married individual must live apart from his/her spouse for the entire year to qualify for Head of Family filing status. If the dependent does not live in the same home with the taxpayer, such taxpayer does not qualify as head of family even though the taxpayer may contribute to the support and maintenance of a separate household for the dependent.

You **must** have a dependent of yours living in the home with you for the entire year to file as head of family. By checking line 4 of the tax return to file as head of family, you are allowed \$8,000 *and* on line 6 you are allowed \$1,500 for the required dependent, which totals \$9,500 for your head of family status exemption. If you have additional dependents, list them on the additional lines available on line 6.

Line 5: Single

Enter \$6,000 on line 11

A single taxpayer status is allowed for a person who is not married or who is married but legally separated from his/her spouse on the last day of the tax year.

Additional Exemptions

An additional exemption may be claimed for a taxpayer and/or spouse **ONLY** if blind or age 65 or over. The status on the last day of the tax year will determine the additional exemptions authorized except in the case of death of a spouse or dependent. See the following chart for a list of additional exemptions.

Additional Exemptions	
The additional exemptions are as follows:	
• Each dependent, other than yourself or spouse.....	\$1,500
• Age 65 or over, taxpayer or spouse only.....	\$1,500
• Blind, taxpayer or spouse only.....	\$1,500

Line 6: Dependents

Enter the dependent's name, the dependent's relationship to you, and the dependent's Social Security Number. A dependent is a relative or other person who qualifies for federal income tax purposes as a dependent of the taxpayer. **A dependency exemption is not authorized for yourself or your spouse.**

An additional exemption may be taken by the taxpayer for each authorized dependent claimed. You must enter the SSN and relationship for each dependent claimed on your tax return.

Line 7: Number of Dependents Claimed

Enter the number of dependents claimed on line 6. Additional dependents are listed on Form 80-491.

Line 8: Age and Blindness

If the taxpayer or spouse is age 65 or over, or blind, an additional exemption may be claimed. Mark an "X" in the applicable box(es) on line 8 and enter on line 9 the number of boxes checked. For tax purposes, a person is 65 years of age on the day before his 65th birthday. No additional exemption for age or blindness may be claimed for dependents.

Line 9: Total Number of Dependents Claimed and Total Number of Age and/or Blindness Exemption(s)

Enter the total number of dependents claimed on line 7 and/or blindness exemptions claimed on line 8.

Line 10: Total Additional Exemption(s) Amount

Multiply line 9 by \$1,500 and enter the result on line 10.

Line 11: Filing Status Exemption

Enter the dollar amount corresponding to the Filing Status you selected from lines 1 through 5.

Line 12: Total Filing Status/Additional Exemption Amounts

Add the amounts from line 10 and line 11 and enter the result on line 12.

MISSISSIPPI ADJUSTED GROSS INCOME

Married individuals with separate incomes electing to file a combined return (both spouses having earned incomes) should separate their incomes beginning with line 13 and throughout the return in order to take advantage of the lowest tax rates.

Line 13: Mississippi Adjusted Gross Income

Enter the amount of Mississippi Adjusted Gross Income from page 2, line 58.

Non-Resident Return: Enter amount from line 59 or 60, as appropriate.

DEDUCTIONS

You may choose to **either** itemize individual non-business deductions **or** claim the standard deduction for your filing status, whichever provides the greater tax benefit. In the case of married individuals filing separate returns, one spouse may itemize only if the other spouse itemizes. If one spouse claims the standard deduction on a separate return, the other must claim the standard deduction. **You cannot take the standard deduction if your spouse itemizes deductions.**

- State income taxes, or any other taxes allowed for federal purposes in lieu of state income tax, including taxes withheld on Mississippi gaming winnings, are not deductible on your itemized deductions schedule. See the instructions for Schedule A, Itemized Deductions, on page 14.

- Losses incurred at Mississippi gaming establishments are not deductible on your Mississippi itemized deduction schedule.

- Married individuals having separate income and filing a combined return may divide their itemized deductions in any amount between them.

Line 14: Standard or Itemized Deductions

Itemized Deductions

State income taxes or any other taxes allowed for federal purposes in lieu of state income tax are not deductible on your itemized deductions schedule. This also includes the non-refundable income tax withheld on gaming winnings. See instructions for Schedule A (Itemized Deductions). Married individuals having separate income and filing a combined return may divide their itemized deductions in any manner they choose for column A and column B. Mississippi Gaming Losses are not deductible on Mississippi itemized deductions.

Standard Deduction

In lieu of an allowance for itemized personal deductions, you may claim an allowance for the standard deduction. Refer to the table on page 4 for the amounts of standard deduction allowances. Married individuals having separate incomes and filing a combined return (one return), may divide the authorized standard deduction (\$4,600) between the spouses in any manner they choose for column A and column B. Married individuals filing separate returns (two returns) and electing to claim the standard deduction must EACH claim the amount specified - any unused portion of the standard deduction by one spouse on his/her separate return may not be used by the other spouse on his/her separate return.

Enter the amount of your itemized or standard deduction on page 1, line 14. **Form 80-108 must be attached.**

Line 15: Amount of Exemption

Enter the amount from line 12. If Married-Filing Separate, divide this amount by 2.

TAX AND CREDITS

Line 16: Mississippi Taxable Income

Subtract lines 14 and 15 from line 13 and enter the result on line 16. The amount of income tax due is calculated based on this amount. Use the Schedule of Tax Computation (see Appendix) to compute the amount of income tax due.

Line 17: Total Income Tax Due

Using the taxable income amount(s) from line 16, the Tax Computation Schedule should be completed to determine the total Mississippi income tax liability. If Married Filing Joint or Combined, or Married - Spouse Died in Tax Year, filing status is elected, and the amounts in both Column A and Column B are positive amounts, use Column A (Taxpayer) and Column B (Spouse) of the Tax Computation Schedule to compute the tax liability on line 5 of the Schedule.

If Married Filing Joint or Combined, or Married - Spouse Died in Tax Year, filing status is elected, and the taxable income on line 16 of **either** Column A or B is a positive amount, and the taxable income on line 16 of the **other** column is a negative amount, the positive and negative amounts should be combined. If a **net positive** amount results, the tax liability should be computed on the net amount using Column A of the Tax Computation Schedule. If combining the positive and negative amounts reflected in Column A and Column B results in a **negative** amount, there will be no income tax liability. If the amounts shown on line 16, Columns A and B, are both **negative**, there will be no income tax liability. The tax liability for taxpayers using any other filing status should be computed using

Column A (Taxpayer) of the Tax Computation Schedule. Enter the amount from line 5 of the Tax Computation Schedule on line 17, page 1, of the tax return.

Line 18: Credit for Income Tax Paid to Another State (not applicable on the Non-Resident Return)

If you are a resident of Mississippi who earns income in another state and are required to pay an income tax to that other state, you are allowed to take a credit against your Mississippi income tax due in the same year for the total income tax due to the other state (subject to certain limitations).

In order to be allowed this credit, you **MUST** file an income tax return with the other state, **and** attach a copy of this return to your Mississippi return. The withholding amounts shown on your W-2 forms are **NOT** the same as actual tax paid to the other state.

Form 80-160 must be attached. Copies of withholding statements are not sufficient to establish the credit.

Miss. Code Ann. §27-7-77 provides for three limitations which are:

- 1) The credit may not exceed the amount of income tax due the State of Mississippi, indicated on line 17;
- 2) The credit may not exceed the amount of income tax actually paid to the other state; and
- 3) The credit may not exceed an amount computed by applying the highest applicable Mississippi rates to the net taxable income reported to the other state. Highest rates are meant to mean the highest rates at which the net taxable income reported to the other state is taxable by the State of Mississippi.

Line 19: Other Credit(s)

All other allowable credits should be combined and the total entered on this line. For each type of credit taken, enter the applicable two digit code on Form 80-401 as provided in the Appendix.

Line 21: Consumer Use Tax

If during 2013 you made out-of-state purchases of goods or services that you used, stored or consumed in Mississippi and did not pay sales taxes to any state, you are required to pay Mississippi Consumer Use Tax at a rate of 7% of the purchase price.

An example of such purchases includes books, clothing, computers, electronics, furniture, household items and downloads of digital products such as music, movies, e-books and software.

PAYMENTS

Line 23: Mississippi Income Tax Withheld

Add the amounts shown as "MS Income Tax" withheld on your Form W-2 and Federal Forms 1099 and/or 1099-R. Enter the total amount withheld on line 23. You must complete Form 80-107, Income/Withholding Tax Schedule.

Tax withheld on gaming winnings cannot be claimed as Mississippi income tax withheld.

Include **readable** copies of your Form W-2 with your return. Copies of your Form W-2 are available only from your employer. Also include any other forms, (1099, etc.) which have Mississippi withholding, to the back of the return. The withholding credit may be disallowed if W2s are not attached to the return. These items should be listed on Form 80-107, Income/Withholding Tax Schedule, which must be attached to your return.

Line 24: Estimated 2013 Tax Payments, Extension and/or Amount Paid on Original Return

Enter the total estimated tax payments you made before filing your 2013 Mississippi tax return plus any amount credited from your 2012 tax return. Any amount paid with a request for extension of time to file should also be included in this amount.

Line 25: Refund Received and/or Amount Carried Forward From Original Return

Enter the amount of refund received and/or carried forward from the original return. **This line only applies to amended return.**

REFUND OR BALANCE DUE

Line 27: Interest on Underestimated Tax and Late Filing Penalty (from Form 80-320, line 15)

An individual taxpayer is subject to making estimated tax payments if such taxpayer does not have at least 80% of his/her tax liability withheld through wages subject to withholding **and** such liability exceeds \$200.

Farmers or Fishermen Exception: You will not be charged interest for underpayment of tax if your gross income from farming or fishing is at least two-thirds of total gross income and (a) estimate tax paid by the 15th day of the first month after the close of the income year or (b) income tax return is filed by the first day of the third month following the close of the income year and tax shown due is paid.

The penalty imposed for failure to file a return is 5% per month not to exceed 25% in the aggregate. The failure to file penalty is based on the Total Income Tax Due (page 1, line 17). **Such failure to file penalty shall not be less than \$100 and will be applied to all returns filed after October 15 (including returns resulting in a refund).**

If you are subject to making estimated tax payments or have failed to file a return timely, use Form 80-320 to calculate the penalties.

Line 28: Overpayment

If line 26 is larger than line 22 plus line 27, subtract line 22 and line 27 from line 26 and enter the overpayment of tax on line 28.

Line 29: Credit to Estimated Tax

Enter on line 29 the amount of your overpayment you wish to be credited to your 2014 estimated tax account. This amount will **not** be mailed to you.

Line 30: Voluntary Contribution Check-Offs (not applicable on the Non-Resident Return)

Subtract lines 29 and 30 from line 28 (Non-Resident Return, subtract line 30 from line 31). Subject to correction of error, this is the amount of your refund. Please allow at least ten weeks to process your refund, perhaps longer if filed near April 15 or if you have a prior delinquency. The refund will be mailed to the address on your return. Line 33: Late Payment Interest and Penalty

Enter the amount from Form 80-320, line 19. An extension of time only extends the time for filing a return, not payment of the tax. If the income tax is not paid by the original due date of the return, then interest is due at the rate of 1% per month.

The penalty imposed for failure to pay the tax when due is 1/2% per month not to exceed 25% in the aggregate. The penalty is based on the balance due. Interest and penalty for late payment is not charged on interest and penalty on underestimated income tax payments.

Line 35: Wages, Salaries, Tips, Etc.

- The amount shown on your Wage and Tax Statement (Form W-2) in the box "State wages, tips, etc."
- Wages you received but for which you do not have a Wage and Tax Statement.
- Tips you did not report to your employer.
- Fair market value of meals and living quarters if given by your employer as a matter of your choice and not for your employer's convenience.

Include all W-2's with your return. Also, you must complete the Income/Withholding Tax Schedule (Form 80-107) and submit it with your return.

Differences may exist between the amount of state taxable income entered on this form (line 36 through line 46) and the amount of federal taxable income entered on Form 1040, 1040A, etc. In such cases, reconciliation must be provided. This can be accomplished in one of two ways. The first method is to enter the amount per the federal return for the corresponding line item (e.g. line 36 - Schedule C income) on the Mississippi return. A separate adjustment is recorded on Schedule N identifying the difference(s) between federal and state reportable income (e.g. Bonus Depreciation Adj. - Schedule C - 1). The alternative is to enter the amount of Mississippi reportable income on the appropriate line (e.g. line 39 - Farm Income) and attach a separate schedule reconciling the federal amount, the item(s) of difference, and the state amount reported on page 2 of Form 80-105.

Non-Resident Return: On Form 80-205, married individuals with separate incomes electing to file a combined return (both spouses having earned incomes) should combine their incomes beginning with line 36, and throughout the schedule to determine Total Income from All Sources and Income(s) Earned in Mississippi Only.

Line 36: Business Income or Loss

Enter your profit or loss if you owned a business or practiced a profession. If you had more than one business, or if you and your spouse had separate businesses, complete a Schedule C for **each** business. If the Mississippi net profit or loss amount varies from the Federal Schedule C net profit or loss, then provide reconciliation. If you enter the federal amount on this line, but there is a difference between Mississippi and federal amounts, enter the

adjustment on Form 80-108, Schedule N. The Federal Schedule C must be attached to your return.

If some of your expenses are part business and part personal, you can only deduct the business part as a business expense.

Line 37: Capital Gain or Loss

Enter the amount of capital gain or loss. Mississippi generally follows IRS rules concerning computation of capital gains and losses. Capital loss deductions are subject to the same limitations as federal. However, Mississippi does not have different tax rates for capital gains. All income is taxed at the same rate. Gains from the sales of ownership interests must first be reduced by the amount of any losses determined from sales or transactions described in Miss. Code Ann. § 27-7-9(f)(10). If the amount reported on this line is different than the amount reported for federal purposes, reconciliation should be attached. If you enter the federal amount on this line, but there is a difference between Mississippi and federal amounts, enter the adjustment on Form 80-108, Schedule N. The Federal Schedule D must be attached to your return.

Line 38: Rental Real Estates, Royalties, Partnerships, S Corporations, Trusts, etc.

Enter the income or loss from activities reported on Federal Schedule E on this line. If the amount reported is different than the amount reported for federal purposes then attach reconciliation. If you enter the federal amount on this line, but there is a difference between Mississippi and federal amounts, enter the adjustment on Form 80-108, Schedule N. The Federal Schedule E must be attached to your return.

Line 39: Farm Income or Loss

Enter the net farm income or loss on this line. If you are a farmer or rent your farm on shares, attach Federal Schedule F to your tax return.

NON-RESIDENTS AND PART-YEAR RESIDENT

Unless otherwise stated, the line item instructions are generally the same for both the Resident and the Non-Resident returns; however, lines 13 through 15 differ on the Non-Resident Return from the Resident Return. The following instructions are specific for Form 80-205 only.

Lines 13 through 15

In order to complete lines 13 through 15 of Form 80-205, the Exemption and Deduction (Standard or Itemized) must be prorated according to the ratio of Mississippi income to total income of taxpayer and spouse from all sources. Complete page 2 in order to complete lines 13 through 15.

Non-Resident individuals are allowed the same personal and additional exemptions authorized for resident individuals. However, the full amount of the exemptions is intended for individuals (residents) reporting total income to Mississippi, regardless of source.

Mississippi law provides that non-resident individuals not reporting total income are entitled to a deduction of that portion of the personal and additional exemptions in the ratio that income from sources within Mississippi bears to total net income from all sources. **The ratio determined cannot exceed 100%.**

If the total income of the taxpayers, including husband and wife, is not reportable to Mississippi, the personal exemptions must be reduced on an income ratio. Only the Mississippi income is taxable for Mississippi income tax purposes, but total income must be declared for the proration of exemptions and deductions.

If married, with one spouse a resident and the other a non-resident, the personal exemption of the resident individual shall be prorated on the same basis as if both husband and wife were non-residents having net income from within and without the State of Mississippi.

Part-Year Residents: An individual who is a resident of Mississippi for only a part of the tax year by reason of either moving into the state or moving from the state shall be allowed the same personal and additional exemptions as authorized for resident individuals. However, the part-year resident shall likewise prorate his, her, or their personal and additional exemptions on the same basis as provided above for nonresident having net income from within and without the state.

Standard Deduction: Proration of the standard deduction is required of non-residents and part-year residents for the same reasons and subject to the same limitations as described above. If you elect to claim the standard deduction, in lieu of itemizing personal deductions (Schedule A), and your total income is not taxable for Mississippi income tax purposes, it is necessary to prorate the deduction.

Itemized Deductions: Proration of the itemized deductions is required of non-residents and part-year residents for the same reasons and subject to the same limitations as described above. If you elect to claim itemized personal deductions (Schedule A), in lieu of claiming the standard deduction, and your total income is not taxable for Mississippi income tax purposes, it is necessary to prorate the deduction. Mississippi part-year residents are authorized to claim only the itemized deduction expenses incurred while a Mississippi resident. **Local taxes and Mississippi gaming losses must be subtracted from Mississippi itemized deductions.**

General restrictions exist on the use of income tax credits on a Mississippi individual income tax return. Most often these credits will be passed through from an entity filing a Mississippi Partnership or S Corporation tax return.

The following will show the maximum credit allowed. Some of the credits do allow the unused portion to be carried forward for a period of time. If a taxpayer has more than one credit and/or more than one type of credit, the credits may be used in any sequence so as to obtain the greatest tax savings. Form 80-401 must be attached to your income tax return. If more than three income tax credits are claimed, attach a supplemental schedule and enter the total on line 3 of Form 80-401.

This credit is limited to the lesser of \$5,000.00 per location or the income tax attributable to the location paying the ad valorem tax. This credit can be acquired in two ways, the first would be from a pass through entity and the second from a business whose income is being reported using a Schedule C in the individual tax return (if the credit is from a Schedule C then attach a copy of the ad valorem tax bills). This credit is calculated as follows: multiply the net income passing through from the entity or the income off the Schedule C by the effective tax rate/rates (starting at your highest effective tax rate then work down if some of the business income is taxed at 4% and/or 3%). Any unused credit may be carried over for five years. Any expenses on which the credit is calculated must be added back to taxable income.

This credit, based on the costs incurred for certain approved reforestation practices, is an amount equal to the lesser of fifty percent (50%) of the actual cost of approved practices or fifty percent (50%) of the average cost of approved practices as established by the Mississippi Forestry Commission. In any taxable year, the credit shall not exceed the lesser of \$10,000 or the amount of income tax imposed upon the eligible owner for the taxable year reduced by the sum of all other credits allowable to the eligible owner (except for withholding credits, estimated tax payments, and/or credit for

tax paid to another state). The maximum reforestation tax credit that an eligible owner may utilize during his lifetime is \$75,000 in the aggregate. Any unused portion of the credit may be carried forward to succeeding years. Generally, reforested acreage on which the eligible owner receives any state or federal cost share assistance funds to defray the cost of an approved reforestation practice is not eligible for the credit, unless the eligible owner's adjusted gross income is less than the federal earned income credit level. Any expenses on which the credit is calculated must be added back to taxable income.

Child Adoption Credit

An income tax credit is available up to \$2,500 for qualified adoption expenses paid or incurred during the tax year for each child legally adopted by a taxpayer. The credit may be claimed for the tax year in which the adoption becomes final and any unused credit may be carried forward for three (3) years. Formerly, if the Child Adoption Credit was claimed, then the child could not be claimed as a dependent. Senate Bill 2833 removes the restriction to allow both the exemption and credit. The amendment went into effect January 1, 2013.

Long Term Care Credit

Effective January 1, 2007, there is a credit available against individual income taxes for premiums paid during the taxable year for certain qualified long term care insurance policies as defined in Section 7702B of the Internal Revenue Code. The credit available is twenty-five percent (25%) of premiums paid during the taxable year not to exceed \$500 or the taxpayer's income tax liability, whichever is less, for each qualified long term care insurance policy. No carry forward is allowed for any unused portion.

Biomass Energy Investment Credit

A credit is allowed for eligible facilities equal to five (5%) of investments made in the initial establishment of this facility. An eligible facility is a new facility that creates at least twenty (20) full time jobs with a minimum investment from private sources of \$50,000,000 and produces electric energy from biomass. The credit shall commence within two (2) years from the date becomes operational and may be carried forward for five (5) consecutive years. The credit is limited to fifty percent (50%) of the total state income tax liability.

Wildlife Land Use Credit

Effective January 1, 2011, a state income tax credit is allowed that provides a \$5.50 per acre tax credit for certain taxpayers that allow land to be used as a natural area preserve, wildlife refuge, wildlife management area or public outdoor recreation area. Land must first be approved to be suitable for the uses listed above by the Mississippi Commission on Wildlife, Fisheries and Parks. Any unused credit amount may be carried forward for five (5) years from the close of the taxable year in which the land was approved for such a use.

You may visit our web site at www.dor.ms.gov for information on other credits and their limitations. Other credits include Enterprise Zone Credit, Business Child/Dependent Care Credit, Basic Skills or Training Credit, Finance Company Privilege Tax Credit, Mississippi Business Finance Corporation Revenue Bond Service Credit, Export Port

Charges, Temporary Assistance for Needy Families (TANF) Credit.

NOTE: The Business Child/Dependent Care Credit referred to above IS NOT the same credit that is allowed

for federal income tax purposes. The credit referred to here is allowable to employers who provide facilities for the care of dependents of their employees.

1. Faster
2. Convenient
3. Easier
4. More accurate

WHO MUST SIGN?

You must sign your tax return. The return is not considered legal until you sign and date it. If you and your spouse are filing a joint or combined return, both of you must sign even if only one had income. If your return was prepared by someone else, that person must sign the return as the preparer. No refunds will be made unless the return is properly signed.

TAX PAYMENTS

The total tax due on the return must be paid in full no later than the 15th day of the 4th month after the end of the tax year.

Payment Options:

- **On-line Payments:** To pay on-line, go to www.dor.ms.gov, click on Taxpayer Access Point (TAP) and follow the instructions. Without a MARS account or a TAP login, users are able to make estimate payments on-line.
- **Check or Money Order Payments:** To pay by check or money order, complete the payment voucher (Form 80-106), make the check or money order payable to the Department of Revenue and mail both to P.O. Box 23075, Jackson, MS 39225-3075. Write your identification number on the check or money order. **DO NOT** send cash through the mail.

INSTALLMENT AGREEMENT

An installment agreement is available to taxpayers that have a tax liability of at least \$75. In order to qualify for the installment agreement, the return must be filed on or before the due date, or any extensions allowed, and Form 71-661 must be submitted with the return. You (and your spouse if a joint return) must have filed all required income tax returns and paid all taxes due for the past five years. **You also can not have previously entered into an installment agreement during the past five years.**

There are two types of installment agreements for taxpayers that have a tax liability:

- 1) Tax liability of \$75 but no more than \$3,000 - The installment agreement allows you to pay the amount due in twelve equal monthly installments.
- 2) Tax liability exceeding \$3,000 and an installment agreement with the Internal Revenue Service (IRS) for the same tax year - The installment agreement allows you to pay the amount due in sixty equal monthly installments. You must attach a copy of the approved installment agreement notification from the IRS. The agreement may be terminated if any installment payment is not made timely. It may also be terminated if you do not pay any other tax liability when the liability is due.

Interest of one percent (1%) per month continues to accrue during the installment agreement period. You will need to contact our office for the remaining balance on the account prior to the last payment to ensure the interest is paid correctly. If you have a pending bankruptcy case, you may be barred by federal law from participation in an installment agreement; please contact our office for more details. Additionally, if you file bankruptcy during the installment period, you must notify our Bankruptcy Section immediately at 601-923-7393; due to the automatic stay provisions of the U.S. Bankruptcy Code the installment agreement may be void at the time you file your bankruptcy case.

DECLARATION OF ESTIMATED TAX

Generally, you must file a Declaration of Estimated Tax, Form 80-106, for the income tax year if you do not have at least 80 percent (80%) of your annual Mississippi income tax liability prepaid through withholding and if your annual tax liability exceeds \$200.

Estimate payments may be filed on-line through TAP. From the TAP home page, click on "Make an Estimated Payment". Your name, SSN/ITIN and contact information will be needed in order to make an estimated payment.

Underestimating the required amount of tax or failure to file estimated tax returns and pay the tax within the time prescribed will result in an assessment of interest of 1 percent (1%) per month on underpayment of tax from the date payment is due until paid (see exception below). Form 80-320, Interest and Penalty Worksheet, should be used to determine the amount of underestimated interest due.

Exceptions: You will not have to pay the underestimated interest if either of the following applies:

- Gross income from farming or fishing is at least two-thirds of total gross income and (a) estimate tax paid by the 15th day of the first month after the close of the income year or (b) income tax return is filed by the first day of the third month following the close of the income year and tax shown due is paid.
- Filing requirements met after the payment due date. Compute the interest in the applicable columns and provide the explanation on page 2 of Form 80-320.

INTEREST AND PENALTY PROVISIONS

- **Late Payment:** Interest and penalty are charged on taxes paid late even if an extension of time to file is granted. The interest is at the rate of 1% per month from the due date until paid. The penalty imposed for failure to pay the tax when due is 1/2% per month not to exceed 25% in the aggregate. Late payment interest and penalty apply to any unpaid tax after April 15.
- **Failure to File:** The penalty for failure to file a return is imposed after October 15. The penalty is 5% per month not to exceed 25% in the aggregate. The penalty imposed for failure to file is based on the amount shown as tax on the return. Such failure to file a return penalty shall not be less than \$100.

ROUND TO THE NEAREST DOLLAR

All dollar amounts should be rounded to the nearest whole dollar (no pennies). Round down to the next lower dollar amounts under \$.50 and round up to the next higher dollar amounts of \$.50 and over. For example: \$2.15 becomes \$2.00; \$4.75 becomes \$5.00; and \$3.50 becomes \$4.00.

WHAT TAX RECORDS DO I NEED TO KEEP?

Keep a copy of your return with all attachments. Also, keep the original or a copy of any schedules or statements you used to prepare your return. Keep your records that support an item of income or a deduction appearing in a tax return until the statute of limitations for the return expires. The statute of limitations is generally three years from the date the return was due or filed, whichever is later.

Save any records concerning property, home, stocks, and business property you bought and may sell later. The records kept should show the purchase price, date and related cost. For real property, keep records showing the cost and date of improvements.

Your return may be audited by the IRS or the Department of Revenue. If audited, the law requires you to show proof of your income, expenses, and cost of assets. In the case of an audit by the IRS, the statute of limitations for adjusting income tax return is extended for three additional years beginning with the date the audit is disposed of by the IRS.

TAX RATES

Income Tax: 3% on the first \$5,000 of taxable income, 4% on the next \$5,000 of taxable income and 5% on taxable income in excess of \$10,000.

AMENDED RETURN

File an amended return to:

- make adjustment to tax;
- claim a refund due to an adjustment to tax;
- report federal adjustments (1040X), and;
- report IRS audit adjustments.

When to File: A taxpayer may apply to the Commission for revision of any return filed at any time within 3 years of the due date; or, if an extension was granted, 3 years from the date the return was filed. The 3 year period is not applicable to an IRS audit; however, no additional assessment or refund will be made more than 3 years after the date the IRS disposes of the tax liability in question.

Internal Revenue Service Audit (RAR): To document adjustments made as a result of an IRS audit, the Revenue Agent Report should be attached to the Mississippi amended return. If the amended return is filed within 30 days of the finalized IRS audit, penalties will not be assessed.

Amended Federal: To document adjustments made as a result of an amended federal return, a copy of the amended

federal (Form 1040X) should be attached to the amended Mississippi return.

Any other documentation supporting the adjustments made should also be included with the amended Mississippi return. Attach a copy of the original filed return.

DEATH OF A TAXPAYER

If you are a survivor or representative of a deceased taxpayer, you must file a return for the taxpayer who died during the tax year or before the 2013 return was filed. A return for the deceased taxpayer should be filed on the form which would have been appropriate had he or she lived. Enter the word **"deceased"** and **the date of death** after the decedent's name on the return. Include the decedent's social security number in the space provided.

If a refund of less than \$500 is requested on the decedent's return, a refund may be paid, without the necessity of administration, to the decedent's surviving spouse, or in the absence of a surviving spouse, to a survivor in the order listed in Miss. Code Ann. § 27-73-9. In either case, the survivor must complete and attach to the refund check an affidavit attesting to the fact that he or she is the rightful heir to the decedent's refund of Mississippi income tax. An affidavit of heirship, Form 80-699, may be obtained from the Office of Tax Administration of the Department of Revenue.

FAQs

The following is intended to provide general information concerning frequently asked questions about taxes administered by the **Mississippi Department of Revenue**. It is an informal interpretation of the tax law and is not intended to serve as a rule, regulation, declaratory opinion, or letter ruling. Legislation, regulations, court decisions, notices and announcements could affect the accuracy of this information. Please refer to the *Mississippi Code Annotated* and the *Mississippi Administrative Code* for the most current version of the law and administrative procedures.

1. I am a full-year resident but my spouse is not. How should we file?

You must file a Mississippi Return Form 80-205 (Non-Resident Form). The resident spouse will report to Mississippi income earned from ALL sources for the entire year. The spouse that is not a resident will report to Mississippi income earned in Mississippi, but will declare his or her total income for purposes of prorating the exemptions and deductions.

2. I am in the armed forces. What is my residency status? What is my spouse's residency status?

Mississippi Resident – If you enter the armed forces when you are a Mississippi resident, you do not lose your Mississippi residency status, even if you are absent from this state on military orders. You are subject to the same residency requirements as any other Mississippi resident and are required to file a Mississippi income tax return.

Non-Resident – If you are not a Mississippi resident but are stationed in this state by military orders, your military income is **not** subject to Mississippi income tax. However, if you have income subject to Mississippi tax, file Form 80-205 (Non-Resident Form). Mississippi does tax other income earned in this state by you.

The Military Spouses Residency Relief Act (MSRRA), effective January 1, 2009, provides that spouses of military personnel who move to Mississippi due to a service member spouse being posted for military duty can keep their former residence for tax purposes. This allows non-resident spouses to exclude Mississippi income if the spouse meets certain criteria, such as filing and paying income tax to the state of residency. For more

information regarding the MSRRA please visit www.dor.ms.gov.

3. I am getting an income tax refund this year. When will I get my check?

ELECTRONIC return filers please allow **ten business days** before calling about your refund. All other returns which are filed early are processed before and usually more quickly than returns filed closer to the due date. Ordinarily, within ten weeks after we receive your completed return, we will mail your refund check. Therefore, allow at least **TEN WEEKS** for your refund to arrive before contacting us.

4. What if I am audited by the IRS?

If you receive a refund or owe additional federal tax, you should file an amended Mississippi return after the Internal Revenue Service disposes of the tax liability in question (See Miss Code Ann. § 27-7-49 (3)). See the Amended Return Section of this booklet for additional information on filing an amended return.

5. Why did I receive a 1099-G?

The 1099-G is an information-only form. It is sent because the Internal Revenue Service requires us to inform you of the amount of the state income tax refund issued to you last year.

If you deducted state income taxes on last year's federal income tax return (Federal Schedule A,) then you are required to report this amount as income on your federal tax return this year. If you did not itemize your deductions on the federal return, then this form is only for your records.

6. Why didn't I receive an income tax form through the mail?

The Mississippi Department of Revenue discontinued mailing personal income tax forms to taxpayers. With over 90% of the state's taxpayers now using a computer to file or to generate their return, it is no longer economically feasible for the agency to mail forms. Forms and instructions are available on the website, or, forms may be picked up at any of the agency's district offices. Additionally, forms are available at public libraries across the state.

Failure to receive a form from the Department of Revenue does not relieve anyone from filing and reporting their state income tax. Paper forms may be printed and completed by hand, or completed on-line and printed. The on-line fill-in form does not provide mathematical assistance or other prompts, but it does allow the taxpayer to complete return information and print the form ready for mailing. Filing your return electronically can speed up receiving your refund by 8 weeks!

7. How do I report gambling winnings?

Gambling winnings reported on a W2G, 1099, or other informational return from Mississippi casinos are subject to a three percent (3%) **non-refundable** income tax. The casinos withhold the tax at the time of payout.

The amount withheld is non-refundable to the taxpayer. Miss. Code Ann. §27-7-901 provides that the amount of winnings reported on W2G, 1099 or other informational return from Mississippi casinos are not included in Mississippi income and no income tax credit is allowed for the amount of withholding.

A non-resident taxpayer with only Mississippi gambling winnings and/or losses should not file a Mississippi tax return. The document provided by the casino is considered the income tax return for this type of Mississippi income and therefore is proof that the tax was paid to Mississippi.
