

Building Recommendation Request Form

The requested information below will allow us to offer you the best product and installation recommendation. Due to the high volume of requests, recommendations typically take 3 to 7 business days to complete; however, we always do our best to expedite the information to you sooner. If you have any questions, please call Tech Support at 866-294-1660.

Disclaimer: Our building recommendations are designed by an expert team with years of experience, and typically work very well. However, remote recommendations of wireless systems are dependent on a number of variables which include complete and accurate information. In as much as the Wilson Electronics team designs systems in a robust manner as a good-faith effort, building recommendations are based solely upon the information provided. Therefore, no responsibility is assumed by Wilson Electronics, LLC, for any business or personal losses arising from the use of our designs. Thank you.

Building Information

For putting your phone into Test Mode (to see the signal strength in decibels, rather than bars), please visit our most up-to-date list, located on the [Wilson Electronics website](#).
