Eagle Lake is Back - Brings back memories of the 70's

Eagle Lake - The Stewart's Rule The Day

Terry & Mr. Don Stewart not only had the winning weight - 15.09#s, they had the big-fish - 2.69#s. Talking about have a good time with your dad, Terry & Mr. Don showed all of us how to make Eagle produce. Tonya is wondering if she'll get her seat back. Mr. Don says if he had a few days he could teach Terry more.

Eagle Lake was once known for producing monster crappie, during the 90's that all changed. Don't know what happened but the Crappie disappeared. Thanks to some restoration work done by MCC & MWFP, Eagle is now where it once was, producing limits of huge black & white crappie.

Terry Stewart our Tournament Director usually fishes with his wife Tonya. Seems that Tonya had other obligations and this father, Mr. Don Stewart agreed to sit in for Tonya. Well that was right up Terry's alley. Getting to spend some quality time with his soon-to-be 80-year-old dad. Terry says they pre-fished Thursday (46), and Friday (31) at Eagle and had a wonderful time. Seems Mr. Don is a tough act to follow. He gets around a little slow, not for his age, but once he gets going its no stopping him.

We tried to interview Mr. Don and find out where and how he caught that big stringer, his response was "I ain't telling you nothing". Looks like he'll fit in perfect with those tight-lipped MCC guys & gals. He did tell us, "If I had a few weeks I could really teach that boy how to fish". Seems Mr. Don, a retired high-school teacher, raised Terry to hunt and fish at a young age. Terry says fishing with his dad was like a dream come true for both he and his dad. They both had to pinch themselves to make sure it was real. All I can say y'all are 4-Real.

Continued.....

The Eagle Lake weights were UN-REAL, the average fish weight was 1.78#s. We had 38 teams to register, 2 teams couldn't fish. All 36 teams that fished weighed 7 fish, totally unusual. The average weight was 11.48#s. It took 13.52#s to get a check. Grenada wouldn't do that good this time of year. Thank God we got another tournament to follow in January.

Chaney Starnes from Southaven came in with 14.82#s to capture 2nd place. This was Chaney's 1st time on Eagle, talk about beginners luck. Chaney usually fishes with his wife, Deanna, but he had to make the 233 mile trip alone this time. Chaney & Deanna are 2nd year members and Crappie.com members, thank you for joining us. You're hooked now, no turning back.

Shelton Culpepper & David Thornton was just behind with 14.77#s. Now David & Shelton live on Eagle Lake. They know most of the fish by name. My partner Don Terry saw Shelton & David pre-fishing on Tuesday, Don pulls over to speak to them, seems Shelton had 2 fish on, and wouldn't pull his pole up. Now I always knew Shelton was sneaky, but that takes the cake. Pay-Back is coming my friend, pay-back is coming.

Brad Chappell & Bo Hudson, two of my former friends, finished 4th with 14.74#s. We're suppose to keep each other posted. Somehow they didn't get the memo. We made a pact, the long-liners would stick together. Nothing doing, guess I gotta go it alone. See ya later guys.

Rounding out the Top-5 was Andy Tackett & Callaway Harris with 14.62#s. These guys are hot, they're in the top 10 in points. Andy did convince me not to fish Chotard. I know that's how it suppose to work, Bo & Brad. This season is Andy & Callaway's 2nd full year on the MCC Trail. They too are Crappie.com members, thanks for joining us. Andy is a current MCC board member and a Grenada Guide.

Ok, let me tell y'all a true story, Saturday before our tournament I was pre-fishing Chotard. When I came to the landing I met Brad Taylor. He asked if I caught anything I responded, showing him my fish. He opened the live-well on that big 22' Ranger and it was slap full. I asked him where he caught them, he said "up side the bank", 3' of water. So, on Friday I got "up side the bank", I did find huge fish, 'G-A-R'. I hooked some gar at least 25 to 30 pounds. 8' to 10' long. I fished Albermarle & Chotard with the same results. Oh, the gar in Chotard are more aggressive. They will eat half a minnow and then eat the other half. I know why they call them Alligator Gar now.

I knew better than to listen to my competitors, some how Brad looked too innocent to lie to me. When I confronted him at Eagle he said "I told you where the fish were, just not the right lake". Ok, guess I deserved that, learned a valuable lesson, "DON'T BELIEVE NOTHING THEM GUYS OR GALS TELL YOU BEFORE A TOURNAMENT". Pay-Back is Coming - Sooner than you think Brad. **BW**

Eagle Soars!! Dreams Come True!!

Eagle Soars is a trade phrase that Paul Johnson has wanted to print for several years now and this past Eagle tournament could not have Soared more!! And several dreams came true from fishing with kids to large numbers of fish and heavy weights caught!! But the one of my Dad, Don Stewart and I being able to fish a tournament together and then lucking up and winning is really special for me!! I'm not sure who was the happiest between Dad and I but I can assure ya'll we're both still on cloud 9!! Great job Daddy on catching 15.09 lbs. of Eagle Lakes finest!! And congratulations to Chaney Starnes coming in a close second with 14.82 lbs. of Eagle slabs!! Chaney had never laid eyes on Eagle Lake until tournament morning and he smacked 'em!! Imagine if he pre-fishes a little and has Deanna with him!! Great job Chaney!!

MCC would like to thank Mark Johnson and crew at Chotard Landing for another great hosting. We all agree this is one of MCC's favorite tournament headquarters!

And thanks again David Thornton for another fine fish fry at your beautiful place!!

Can Eagle Lake do it again? Another month of feeding, eggs growing and weather permitting we could see even heavier weights at Eagle on January 5th!! Bring a kid, encourage a potential new member to come check out this great organization of Magnolia Crappie Club!! Hope ya'll smack em!! Any questions call Terry 601-502-5699.

Eagle Lake—Long - Lining to the Max!!!

We're almost at the half-way point of the season. Eagle lake produced like one of the big-four. There were reports of 3-pounders caught on Friday before the tournament. Charles Lindsay says he had one break 10# test line. That's huge, I always knew the big white crappie were there, we've caught em before. The fish should be heavier come January. Get ready for some fun.

The Chotard/Eagle Tournament was one of the smoothest weigh-ins we're had with the new equipment. Everyone did exactly what was needed, our equipment worked well, and the participation was wonderful. Thank you all. We're not hearing the complaints that once plagued us. We appreciate you patience going through the learning curve. We have lots of work to do and we need everyone to chip in and help. This is OUR Club, now my club. Please walk up to someone you don't know and introduce yourself and share phone numbers, email addresses and stay in contact with each other. We only have a few events left to fish, so lets enjoy the time we have together. Reach out and make a friend, they last a lifetime.

Bo Hudson

From the President's Desk - Kenneth Middleton II

YOU JUST CAN'T MAKE THIS STUFF UP!

So there we were, at the weigh-in at Chotard landing. As the weights began coming in and getting larger and closer with each team, I was thinking about all the teams went through to get to this day. In the top ten we had Hugh Krutz and Steve Stevenson. Hugh had been on his death bed for two days with some kind of flu bug and laid in the boat while Steve checked the fish under the piers which paid off well on T-day.

Then there was our crankbait pulling team from the coast, Greg and Ginger Ladner, who got their daughter ready for the deer stand before checking in to fish. The Nichols family picked their son up at the airport the week before, fresh out of Marine boot camp, and spent one of the precious few days they had with him on the lake with us.

The second place winner, Chaney Starnes, was unable to pre-fish Friday because of a scheduled doctor's appointment. Chaney had to find a map to the Eagle boat ramp. He put a stomping on us! Greg Ward from Olive Branch had the pleasure of his daughter's company on this great day to boot.

Shelton Culpepper welcomed his new twin grandsons into the world on Friday morning in Hattiesburg, then rushed back in time get in the boat with David Thornton to show us how it's done on their home lake.

Then something special happened on that special day. The winner of all the marbles was Mr. Don Stewart and his net man & son Terry. We couldn't have written a better script for a weigh-in. I know Terry has one of those great memories that last a lifetime. I have never heard as much hooting and hollering at a MCC weigh-in before. The weights were huge, close and you didn't know what the next team had in their bucket.

Thanks so much to Mark and Jerry and the staff at Chotard Landing for the great meal at the cook-out Friday night! The food and fellowship was fantastic and look forward to the next tournament in January. More to come,

Kent Holmes & Allen Morgan were the winners of Chotard / Eagle II last year. They always do good on their Home Lake. Yes, I said home lake because they do have a cabin on Eagle. Only thing we all know where they're gonna fish. Let's all gather around and fish close as possible to Mr. Holmes and Allen. We know it's gonna be some heavy weights coming from Chotard & Eagle this time of year. These river lakes are known to produce giant specks and white crappie. Be there on Jan. 5th.

Jennifer & John, you can't get into Tennessee this time, what's the game plan this time.

Ok Terry, the honeymoon is over, you gotta show Tonya you can catch fish without your daddy.

Ken, have you told them crappie you are President and they have to follow your order and bite your hook?

Ok Pat, you better not let Rabbit see you sleeping on the job. He don't play that. WAKE UP!!!!

Chotard / Eagle ~ Top Teams

Terry & Don Stewart took both top prizes at Chotard / Eagle, winning weight, a whopping 15.09#'s and Big Fish 2.69#'s. Terry says it was a true pleasure fishing with his dad. Maybe one day Terry will fish as good as Mr. Don, no, won't happen!

Congratulations to Chaney Starnes, his 14.82#'s earned him 2nd place. Deanna would have caught more fish. We Know!

These guys are on a hot streak. David Thornton & Shelton Culpepper, 3rd with 14.77#'s. Home Field Advantage, I guess.

4th place went to long-liners Brad Chappell & Bo Hudson with 14.74#'s. Y'all would've won if you had shared your info with me. Oh Well.

Callaway Harris & Andy Tackett finished 5th with 14.62#'s. They can fish, not just on Grenada. Congratulations guys, good job.

Get Well Soon - Please say a prayer for our Sick & Injured Members

Please say a special prayer for Amanda Tomasich, we learned she was burned in an accident at work. Please pray for her and Mark. They are our friends from down on the coast. Get well Girl!!!

We were shocked to hear one of our Charter Members, Mrs. Jane Rogers suffered a heart attack on the day of our Barnett Tournament. We are glad to hear she is recovering well. Get well soon. Rabbit needs you in the boat. We now know who caught all the fish during your era.

FARM BUREAU INSURANCE

crappie

"Picking the color of a lure can be a difficult choice. Some people believe that the color of a lure makes no difference to the performance of luring fish to your hook, while others believe it can be the difference between a solitary fish and a large haul depending on the conditions. Bandit Lures has taken the guess work out of selecting a lure. With our new crappie color collection you can't miss."

Smoked Crappie Dip with Crackers

Thought I'd share my smoked fish dip recipe, everyone who tries it loves it, bet you will too.

I start by brining about 10 nice crappie filets in salt and sugar for about 20 minutes, then I rinse them, pat dry and spray with cooking spray.

Coat them with lemon pepper and put them in the smoker for about 1 1/2 hrs. with hickory.

Let the fish cool until firm in the fridge, then shred in a food processor.

In a large bowl I will soften 2- 8oz cream cheese, add 1 cup sour cream and 1/4 cup miracle whip salad dressing.

Add 3 stalks finely chopped celery and one medium onion, 1/4 cup dried parsley, 1/4 tsp. garlic powder, 1/4 tsp. onion powder, and 1/8 tsp. cayenne pepper.

Now fold in your shredded fish and 2 tsp. Franks hot sauce. You can add more or less hot sauce to your own tastes. Spread on town house crackers or something similar. #

Crappie Veggie Delight

- 1 lb. crappie fillets
- 1 cup broccoli pieces
- 1 cup squash pieces
- 1 cup red bell pepper pieces
- 1/4 cup onion
- 3 tsp. olive oil
- 1 tsp. margarine
- paprika
- salt and pepper to taste

Cut fillets into small pieces and coat heavily with paprika.

Salt and pepper to taste. Set aside.

Heat on medium high the olive oil in a large skillet and sauté the vegetables until slightly done. Add just a little salt and pepper. Push the vegetables to the side and place the margarine in the middle of the pan.

Place the fillets in center of the pan and turn in 3 minutes. Too long and they will fall apart. After turning place a tight fitting lid and cook for 5 more minutes. They should form a light crust with the paprika. Serve with rice and some good bread! Enjoy!!

Blackened crappie & Spicy crackers

To start you will need:

1. Cast iron skillet
2. outside cooker (fish fryer or burner on your grill)
3. unsalted butter (the real stuff)
4. Tony Chachere's Cajun seasoning or any other type of blackening seasoning.
5. Liquid hot sauce
6. Sauce pan
7. Long Handled spatula (metal)

Turn burner up to high and place cast iron skillet on heat. Melt butter in sauce pan at least one stick or two. Melt butter but do not let it separate or clarify then mix in a liberal amount of Tony's and give it a few shakes of hot sauce. Mix together and set aside. Take your fish filets and dip them in the butter mixture get them well covered then place them in the VERY HOT skillet . Use the spatula or long tongs to do this because it may flame up and it will smoke heavily . Fish will only need to cook a couple of minutes per side depending on the thickness of the filet the thinner filets work better . The fish should have a light brown to black appearance and should flake apart with a fork. This should be cooked outside ONLY

Spicy Crackers

This takes four packages (sleeves) of crackers saltines, Ritz or any other of your liking. Take one and a half cups of olive oil or canola oil and two tablespoons of crushed red pepper and a pack of ranch dressing mix put these into a bowl and mix. Then place your crackers into a gallon zip lock bag and pour the mixture over them. Seal the bag up and let it set for 24 hours and occasionally turn the bag to ensure all the crackers get coated. Then serve with soup or salad or just by themselves.

Charitable Organization—Naming Contest

MCC is forming a charitable corporation that will be a separate arm of MCC. This organization will have a 501-C3 Federal Charity Status. It will allow MCC to solicit full charitable donations from major companies and individuals. These monies WILL NOT be used for any MCC Tournament Payouts. The organization will have a separate board of directors, made up of MCC members. We will use these funds for events like Wounded-Warriors, Take-A-Kid-Fishing, and Disaster Assistance Events.

We need your help, we're having a Naming Contest to give this organization its own identity. You have until Feb. 2, 2013 to submit your entry. The name selection will be chosen by the MCC Board of Directors at the Sardis Tournament. MCC is in the process of putting together a prize package that will include tackle, clothing and money.

Ok Eli, it's been long enough. We miss you and Team Rowell. Come help me beat the guys. I need some help. Please !!!!!

I never thought you would hear me say this, "George we miss you". Come on back now you hear!
You don't have to fish, just sit in the boat and drink whatever you wish. We need someone to fuss at.

Katie, let me know where the big fish are, I won't tell Rod. Just between us.

We know Vic & Coco will be coming south.
