EXPORT REQUIREMENTS NOTE TO ALL VENDORS

It is pleasing to note that at recent sales buyers from Ireland and Germany have been purchasing animals to export. We now highlight the main criteria currently required to export animals. Whilst Irish buyers are required to make their own arrangements for keeping animals prior to export, animals purchased for Germany require to be taken back home by the vendors and tested by them. German purchasers will be charged £160 + VAT to assist with the vendors expenses. This will be passed to the vendor once the animal has passed the relevant tests. The rules are as follows:-

- All animals (if >42 days) must be TB tested within 30 days of exporting.
- Cattle destined for Germany must, in addition, be isolated for at least 30 days and tested clear of IBR.
- Animals will require veterinary inspection 24 hours before travelling.
- Animals may need to be treated with 'Spot-on' before travelling; some lorries may need to be treated prior to loading
