How to Use the Custom AGILITY Back System Order Form

ROHO® understands that the needs of your clients are unique. For that reason, we are offering the Custom AGILITY back.

You can now use ROHO's DRY FLOATATION® technology to specifically address your client's postural needs. You determine exactly what air cells you need and where, the size of the air cells, and how many compartments of adjustable air are required.

Order Form Example

STEP 1: This back is for a 16" wide and a 13" high shell with a back shell depth of 3". Is that correct for your client?

✓ Yes

☐ No

If no, please contact ROHO Customer Care for the correct order form.

STEP 2: Each box on the featured shell can hold an air cell. Please determine where you would like air cells and the types of air cells needed.

- 1 1" or 2.5 cm
- 2 LOW PROFILE® (2.25" x 5.5 cm)
- **3** MID PROFILE™ (3.25" x 8.5 cm)
- 4 HIGH PROFILE® (4.25" x 10.5 cm)

STEP 3: Custom AGILITY backs give you the options (or) option to create different adjustable air compartments. Please circle the compartments needed for this Custom AGILITY back.

STEP 4: Please note any special considerations, **especially valve locations**¹, you would like our team to know about this custom AGILITY back.

Needs a lumbar support that has a separate valve.

use #3 air cells.

SAMPLE:

SAMPLE WHEELCHAIR BACK:

In this example, the clinician wanted MID PROFILE air cells in a separate adjustable lumbar support. The remaining cells are LOW PROFILE air cells that are also adjustable. Inflation valves come out of the bottom left of the AGILITY cover.

lumbar support. Use 3 air cells.

*Unless specified otherwise, valves will be placed toward the bottom of the custom AGILITY Back.
