NOW, THEREFORE, BE IT ORDAINED this _____ day of _____, 2004 by the County Commission of Hampshire County, West Virginia.

Section 1: APPLICABILITY

Section 1.1 The provisions of this Ordinance apply to all unincorporated areas of Hampshire County. The municipal corporations in Hampshire County have the option to adopt cooperative addressing ordinances or to adopt their own stand-alone addressing ordinances. If a municipal corporation in Hampshire County does not act to adopt a cooperative or stand-alone ordinance within one hundred twenty (120) days of the date of the enactment of this Ordinance, this Ordinance will apply to areas within such municipal corporations until and unless the municipal corporation acts to adopt a stand-alone ordinance.

Section 1.2 Pursuant to the Emergency Rules of the West Virginia Statewide Addressing and Mapping Board on file with the Office of the Secretary of State, Title 169, Series 2, of the Code of State Rules, Hampshire County Commission hereby elects to participate in the West Virginia Statewide Addressing and Mapping Project.

Section 2: DEFINITIONS AS USED IN THIS ORDINANCE

Section 2.1 For the purpose of this Ordinance, the following terms, phrases, works and their derivations shall have the meaning that is provided in the National Emergency Number Association (NENA) Standard Guidelines as referenced by the United States Postal Service, unless the context clearly indicates otherwise.

Section 2.2 “Address Number” means the number assigned to consecutive intervals along a street or road pursuant to the Number Assignment Formula contained herein.

Section 2.3 “Road” or “Street” means any public or private thoroughfare, used for vehicular traffic and/or any easement or right-of-way that provides sole access to more than two parcels or lots. This term shall be defined as the “Street Suffix” and shall include, but is not limited to, avenue, drive, way, boulevard, highway, lane, pike or similar street types.

- Section 2.4 “Number Assignment Formula” means as follows: Beginning from the point of origin a house number shall be assigned for each interval, with each interval on the right side of the roadway as one leaves the point of origin being assigned an even number, and each interval on the left side as one leaves the point of origin being assigned an odd number. Left and right shall be determined from the perspective of a traveler moving away from the road point of origin in a forward motion.
- Section 2.5 “Interval” means the distance along a roadway of 10.56 feet, there being 500 intervals per mile on both sides of a road.
- Section 2.6 “Point of Origin” means the end point of a road, which is the starting point for a numbering sequence. The point of origin for Hampshire County shall be US Route 50 at the county line with Mineral County. The point of origin for an individual road may be adjusted, upon Commission approval, to avoid numbering conflicts.
- Section 2.7 “Primary Structure” means, but is not limited to, residential building, mobile homes, mobile home parks, commercial building, industrial building, office building, public building, utility, communications tower.
- Section 2.8 “Display” means the manner the numbers are affixed to a structure or otherwise displayed when affixing to a structure.
- Section 2.9 “Non-Compliance” means any failure to comply with the provisions of this Ordinance including, but not limited to, by way of example: a number out of sequence, odd or even number on wrong side of street, rural box numbers in a 9-1-1 address area, numbers improperly affixed, numbers illegible, numbers unclear, numbers obstructed, numbers not visible, numbers not present, numbers of improper size, numbers not in contrast with immediate background, weatherworn numbers, wrong numbers, and non-approved numbers.

- Section 2.10 “Occupant” is any person, firm, entity, partnership, trust, corporation, association or other organization that is occupying or leasing a building or other property for a period exceeding thirty (30) days.
- Section 2.11 “Owner” is any and all persons, firms, entities, partnerships, trusts, corporation, associations, or other organizations that own the fee title to, or have an undivided interest in, any building or property, which is subject to the provisions of this Ordinance.
- Section 2.12 “City-Type Address" means a unique address for a structure using a building number and street name. “City-Type Address” is based on an address system, which means that it usually appears in a consistent numeric sequence along a street and reflects parity conventions (that is, odd numbers all appear on one side of the street and even numbers on the other). If number assignment is based on a standard numbering interval, then the “City-Type Address” will also logically provide a distance location from the beginning point of the road.
- Section 2.13 “Emergency Services Purposes” means use for 9-1-1 or enhanced 9-1-1 dispatch and response.
- Section 2.14 “West Virginia Statewide Addressing and Mapping Project” means the project for the creation of a statewide addressing and mapping system for emergency service purposes, but usable as a base for other purposes, in accordance with and consistent with Chapter 24E, Article 1, of the West Virginia Code.
- Section 2.15 “West Virginia Statewide Addressing and Mapping System” or the “System” means the system to be created as a result of the Project, in which Hampshire County Commission is participating, including, without limitation, the establishment of city-type addressing and mapping systems essential to the prompt and accurate dispatch of emergency service providers. The terms “Statewide Addressing and Mapping System” and the “System” also include any local modifications that may be made to the “System” in order to tailor it to meet specialized local concerns.

Section 3: APPOINTMENT AND DUTIES OF ADDRESSING AND MAPPING COORDINATORS

Section 3.1 The Hampshire County 911 Director is hereby appointed the Hampshire County Addressing Coordinator. In addition to the duties set forth elsewhere in this Ordinance, the Hampshire County Addressing Coordinator has the following duties:

The initial costs of such signs and installation will be funded by the Hampshire County Commission for all unincorporated areas of Hampshire County.

Section 3.1.3 The Hampshire County Addressing Coordinator shall recommend a "Hampshire County Road Name Index" for adoption by the Hampshire County Commission and filing in the Office of the Hampshire County Clerk. This Index is to be the official listing of names for streets and roads in Hampshire County and such streets and roads are hereby assigned the names listed therein. As used in the Ordinance, the terms "Street" and "Road" shall have the same meaning and shall also include but not limited to avenues, boulevards, highways, lanes, ways, and similar street types.
