HOW ADA MAKES CAMP POSSIBLE

Throughout the year, the Association raises funds through donations and local fundraising events. The generosity of donors allows the Association to offer every camper nationwide a significant reduction in Camp fees.

You can help support the American Diabetes Association's Camp program by donating to the Association or participating in one of our local fundraising events. Visit www.diabetes.org to learn more or call 888-DIABETES to get involved locally.

SPECIAL THANKS TO

All the Volunteers who give their time to make Youth Retreat possible.

Need help paying for camp?

Financial assistance is available

Our first priority is the physical and medical safety of your child while they enjoy a traditional camp experience. It is not perfecting blood sugar management. Our staff includes:

- Physicians, nurses, and other health care providers who provide round-the-clock medical supervision.
- Registered dietitians who plan meals and snacks, and manage all special dietary needs.
- Program staff trained to deliver fun, safe, and supervised recreational activities and sports.
- Counselors trained to recognize specific diabetes care needs and help kids adapt to the Camp environment.

The American Diabetes Association makes every attempt to accommodate medical and/or emotional needs of campers. However, if we can not meet your child's for a camper to attend is needs, the American Diabetes Association reserves \$1200, but families pay only the right to deny admission to Camp and we will refund your deposit.

PROGRAM

The American Diabetes Association Camp Diamont was established in 1970. Teen Retreat in 1985 and in 1999 the programs were combined to form the Montana Youth Retreat to meet the needs of families and children with diabetes. While the primary objective of retreat is to provide a safe, fun, traditional experience, attention to the medical needs of each retreater is always a priority. Each retreater has the opportunity to learn and practice valuable diabetes self-management techniques under medical supervision.
