Club Staff FAQ about BGCGW membership year and membership form

Why did we change our membership year and membership form?

BGCGW membership year has been changed to unify all club membership transactions and align them with BGCA's year, January 1through December 31. We have also unified the BGCGW manual form to better capture and track the organizations demographic/statistical information on members and types of membership. In addition, some of the information is required so that we can better respond to grant proposals.

Why do we need to use this manual form if we are already using KidTrax online system?

The manual membership form is designed to capture the same information contained in the online KidTrax form and questions are set up in the same sequence as the KT form. This will help club staff accurately transfer the information from the manual forms that are filled out by parents to the KidTrax on line system. The manual form also serves as a hard copy paper and can be used as back up in the event of online systems failure.

Does the manual form ask for additional information that may not be included on the Online KidTrax form?

Yes, there is a section of the form that requests information not requested on the KidTrax form. The "Staff only section" was included to capture additional information regarding membership fees and waivers. In the past, each club has awarded scholarships to children who may not be able to pay membership fees. However, BGCGW has not been able to capture the number of scholarships we actually award each year. Checking the "BGS" and "waivers" portion of that section will give us an accurate number of scholarships awarded. Collection of this information will allow us to determine the number of children who need our help through scholarships.

Why is the category pertaining to household information listed first?

This information is listed first because it reflects the sequence of information contained in the KidTrax form. Requesting to tailor or change the order of the questions to fit our needs would be costly. We are aware that the information regarding the member is used the most by club staff. We realize that asking about household information first could discourage parents from completing the form. However, we are committed to providing an explanation to help parents understand the format and sequence of the form.

Why does the form ask for contact information for two people instead of one?

Club staff has expressed a need to collect more information in this section because there are times when it is difficult for families to pick up their children. Listing an extra contact person can support the family in times of need.

Notes regarding new changes on the actual form:

- 1) On the title section of the form, the 3rd line is designed to tailor the form to provide basic information about your club. Please edit by replacing the words "club, address, telephone and fax" with the appropriate club information about your club. Please save the form so that it can be used by club membership coordinator or designated staff.
- 2) "Staff Only Section" is provided to capture general information about members and the types fees collected. Note that "BGS stand for Boys and Girls Club scholarship and "Waiver" should be utilized when a child's membership fee is waived because it is covered by a grant or another source.
- 3) The confidentiality statement at the beginning of the form should be explained to parents so that they feel that their personal information is protected by Club administration.
- 4) Household information is presented in the same sequence as the KidTrax form. However, you can change the income levels section to reflect the income levels of the population served by your club.
- 5) All other sections on page 1 are the same as the KidTrax form, except the box labeled "types of membership" where we have added a "sports only and fees" line to capture information and numbers on our children exclusively involved in sports.
- 6) An "other information" section in the middle of page 2 has been provided to help club staff make informed decisions when dealing with families with special needs or circumstances. Please list any suggestions the parent may have for dealing with individual situations regarding their children.
- 7) A note about member participation is provided at the end of the page 2, to encourage parents to send their children to club activities consistently because high member participation is likely to yield positive outcomes.
- 8) "Code of Conduct" contains several changes that should be noted. A bold section has been provided to help staff explain the drop-in aspect of membership and to make sure parents understand that BGCGW is not responsible if a child walks out of the club. At the bottom of the page there is a question that asks if the parent and child participated in an orientation of club rules and expectations. This section is provided to help staff explain how they are setting norms for expected behavior at the club.
