Aviation Manager

Vedanta Resources plc. is a London listed FTSE 100 diversified metals and mining group. It is growing at a rapid pace and is amongst the leading global producers of Copper, Aluminium, Zinc, Iron ore & Commercial Energy with operations in India, Zambia and Australia and a strong organic growth pipeline of projects.

As our businesses grow exponentially, we continue to enhance our existing world class infrastructural support for sustained momentum of the organization. Aviation related services form an important component of this infrastructure support. Our multifold growth has spread our business operations across transnational locations & geographies, creating a need for a best in class aviation support structure with multiple advantages of flexibility, accessibility and time management. Applications are invited from potential candidates with relevant hands-on experience.

Role Specifications

The candidate will be responsible for all aviation matters pertaining to the organization. The job profile would broadly cover sourcing of domestic & global charters, effective utilization of aircrafts, day-to-day operations, maintenance and safety, airport & ground handling, ensuring compliance to aviation regulations and liaising with various stakeholders.

Candidate Profile

Ideal candidate should have relevant work experience in a similar capacity handling the entire gamut of aviation related matters in corporate houses or in premier airlines & air-charter industries. She / He should possess in-depth functional knowledge with thorough exposure to all aviation related issues and requirements of business.

At Vedanta, we pride ourselves on being a dynamic organization promoting ownership culture, invigorating work environment and attractive compensation. Interested candidates may please apply through e-mail, to aviation@vedanta.co.in within seven days.
