Following cremation, the cremated remains of the Deceased, consisting primarily of bone fragments, will be mechanically pulverized by processing to an unidentifiable consistency prior to placement in an urn or other temporary container. A person having the right to control disposition of cremated remains may remove the remains in a durable container from the place of cremation or interment, pursuant to Section 7054.6 of the Health and Safety Code. Unless an urn or container suitable for shipment is purchased, the crematory will place the cremated remains of the Deceased in a temporary container. If the cremated remains cannot accommodate all the remains of the Deceased, the crematory shall provide a larger cremated remains container at no additional cost, or place the excess in a secondary temporary container that cannot easily come apart from the first, pursuant to Section 8345 of the Health and Safety Code. Any excess cremated remains will be placed in a secondary temporary container and returned to the Funeral Home, together with the primary urn or temporary container. The human body burns with the casket, container or other material in the cremation chamber. Some bone fragments are not combustible at the incineration temperature and, as a result, remain in the cremation chamber. During the cremation, the contents of the chamber may be moved to facilitate incineration. The chamber is composed of ceramic or other material, which disintegrates slightly during each cremation, and the product of that disintegration is commingled with the cremated remains. Nearly all of the contents of the cremation chamber, consisting of the cremated remains, disintegrated chamber material, and small amounts of residue from previous cremations, are removed together and crushed, pulverized, or ground to facilitate inurnment or scattering. Some residue remains in the cracks and uneven places of the chamber. Periodically, the accumulation of this residue is removed and interred in a dedicated cemetery property, or scattered at sea. In the event that we provide any mementos of the deceased such as thumbprints, strands of hair or the like, we make no representation as to the purity of any biological material or the appropriateness of use for any medical or forensic purpose. The cremation processing of the remains of the Deceased will not be performed in accordance with any particular religious or ethnic customs. In the event the cremated remains of Deceased remain unclaimed for a period of 30 days, the Authorizing Authority will be notified by certified mail at the address indicated on this Authorization. In the event the cremated remains of the Deceased remain unclaimed for a period of one year after the date such written notification is mailed, the crematory is authorized and direct to dispose of the unclaimed cremated remains of the deceased in any lawful manner it may deem appropriate. I/We agree to indemnify, release and hold the Crematory, Funeral Home, their affiliates, agents, employees and assigns, harmless from any and all loss, damages, liability or causes of action (including attorney's fee and expenses of litigation) in connection with the cremation and disposition of the cremated remains of the Deceased, as authorized herein. Any intentional or negligent misrepresentation made by any of the undersigned in connection with the cremation and disposition of the cremated remains of the deceased or my/our failure to correctly identify the remains of the Deceased, disclose the presence of any implanted mechanical or radioactive devices. Except as set forth in this Authorization, no warranties, expressed or implied, are made by the Funeral Home, Crematory or any of their respective affiliates, agents or employees.

PURCHASE AGREEMENT

In connection with the funeral agreements made by purchaser for the decedent named on page one, purchaser hereby confirms to seller that:

1. Purchaser was provided a General Price List prior to discussing or upon beginning discussion of, the prices of funeral goods or funeral services, the overall type of funeral disposition, or the specific funeral goods or funeral services offered by the seller.

2. Purchaser was provided a Casket Price List upon beginning discussion of but in any event before being shown caskets.

3. Purchaser was provided an Outer Burial Container Price List upon discussion of, but in any event before being shown, outer burial containers.

4. Purchaser was advised that the law does not require embalming except in certain special cases. Purchaser was not advised that embalming is required for direct cremation, immediate burial, or a closed casket funeral without viewing or visitation when refrigeration is available and when state or local law does not require embalming. If embalming was provided for a fee, it was done with purchaser's approval or the permission of someone authorized to give approval.

5. Purchaser was not advised that state or local law requires a casket for direct cremation or that a casket (other than an alternative container) is required for direct cremation.

6. Purchaser was not advised that state or local law requires the purchase of an outer burial container. Purchaser was advised, however that many cemeteries do require that purchaser have such a container so that the grave will not sink in, and that either a grave liner or a burial vault will satisfy these requirements.

7. Purchaser was not advised that any funeral goods or funeral services offered by seller would delay the natural decomposition of human remains for a long tenn or indefinite time, or that any such funeral goods have protective features or will protect the body from gravesite substances when such was not the case. No representations or warranties were made to purchaser about the protective features of caskets or outer burial containers other than those made by the manufacturers. Purchaser was advised that the only warranties, expressed or implied, extended in connection with any funeral goods sold with the funeral service were the express written warranties, if any, extended by the manufacturers thereof. No express warranties, and no warranties of merchantability or fitness for a particular purpose, were extended by the seller to purchaser with respect to those funeral goods.

8. Purchaser was not advised that the price charged for a cash advance item was not the same as the cost to seller for the item when such was the case.

9. Certain charges may be estimated and if the difference between such estimates and such actual charges is less than \$10.00, no refund to you or billing us for the difference will be made.
