

Heart Healthy Lenoir

High Blood Pressure Study

My Blood Pressure Log

Name: _____

My Home Blood Pressure Goal Is: _____/_____

- Arm Monitor
- Wrist Monitor

My blood pressure is taken by placing the cuff
on my Left / Right arm (circle one)

Things to remember about your home blood pressure monitor:

- Take your blood pressure at least 3 times per week. It is helpful to have blood pressure readings from different times of the day. For instance , take some blood pressures first thing in the morning before you take any of your medicines & take some blood pressures later in the day or evening.
- Always bring your home blood pressure monitor & your blood pressure log book to every doctor’s visit & to every study visit.
- Record in the “notes” section about what was going on when you took your blood pressure. For example, missing a dose of medication, or your family visiting may be notes to record.
