

Sponsorship Opportunities

You can help young people in your community experience the fun and excitement of career exploration by supporting **Camp Success**. Held in one-week sessions, **Camp Success** is an academic day camp that provides rising middle school students with an opportunity to **Discover Manufacturing** as they develop the creative, innovative thinking skills that power inventions and new technologies.

Goals:

- Generate students' interest in engineering and technology that are central to the world of modern manufacturing and are projected to be in high demand for future employment
- Increase campers' motivation to succeed in school by providing fun hands-on learning experiences with real world applications
- Demonstrate how students' desires to solve problems and make the world a better place can be fulfilled by a variety of careers that support South Carolina's manufacturing industry. Expose parents/guardians to the educational preparation required by many career choices, including two-year technical degrees, advanced technical certifications, four-year college degrees and graduate degrees
- Foster greater understanding among parents/guardians about ways to direct the campers' interest in a career path and support opportunities that enable them to set goals for their future

2010 Camp Success Sessions

Camp Success Florence	June 6-12	Florence-Darlington Technical College
Camp Success Aiken	June 20-25	USC Aiken
Camp Success Greenville	June 20-26	Greenville Technical College

Thank you for supporting manufacturing career exploration through Camp Success!
