

September 24, 2015

Dear Provider,

Oklahoma Health Network (OHN) is proud to announce that we have been awarded the contract to become the value based network for the new HealthChoice FOCUS Plan that is available to pre-Medicare retirees, effective Jan. 1, 2016. The new plan will be offered in the designated Zip code service areas of Canadian, Cleveland, Comanche, Garfield, Grant, Logan, McClain, Oklahoma, Payne and Stephens counties.

The HealthChoice FOCUS Plan offers a patient-centered network designed around providers who are committed to a collaborative approach to care focusing on clinical initiatives that enhance services and the quality and cost-effectiveness of care. The HealthChoice FOCUS Provider Network is comprised of clinically integrated network (CIN) providers who are affiliated with OHN through the following:

- Comanche County Health Partners (Lawton)
- INTEGRIS Health Partners (Oklahoma City Metro and Enid)
- Duncan Health Partners (Duncan)
- Norman Physician Hospital Association (Norman and Moore)
- Stillwater Medical Center (Stillwater)

In support of the clinically integrated networks shown above, you have been selected to participate in the FOCUS Network. Services provided to HealthChoice FOCUS members will be reimbursed according to the HealthChoice fee schedule. In addition, there will be no change in the certification or claims submission/payment processes for FOCUS plan members.

OHN's primary role as it relates to the FOCUS Network is to define the provider network through its affiliated CIN partners, direct care coordination in conjunction with participating CIN FOCUS Providers, provide data analytics, and develop and distribute educational and other resources necessary to support a patient-centered health plan.

The members of the new HealthChoice FOCUS Plan will be required to select a primary care physician (PCP) from those participating in the FOCUS Network. This will allow for better coordination of their care.

Please note that NOT all providers affiliated with the HealthChoice Provider Network (*any willing provider plan*), will be participating in the FOCUS Provider Network. The HealthChoice website, as well as the OHN website, will have links to the providers participating in the HealthChoice FOCUS Network. When referring new HealthChoice FOCUS members for specialty or other care, please check to ensure the provider is indeed participating in the FOCUS Network. To assist you with any questions you may have, enclosed you will find a list of "Frequently Asked Questions" and a document that shows the evolution of the FOCUS Network.

The HealthChoice FOCUS Plan benefits have been enhanced to include a calendar year deductible of \$250 for an individual or \$750 for a family; a PCP office visit copay of \$15, and a lower out-of-pocket maximum.

The HealthChoice FOCUS Plan is effective Jan. 1, 2016, and new member ID cards, which will include the HealthChoice FOCUS logo below, are currently under development. Please become familiar with the new logo so you will recognize HealthChoice FOCUS ID cards when you are presented with one. The ID cards will also include information pertaining to where to file claims, who to contact for eligibility, benefit or claims questions, etc.

As mentioned previously, the provider fee schedules, certification and claims submission/payment processes will remain in place as they are today with existing HealthChoice plans. You will contact OHN for any network participation or care coordination related questions.

We look forward to working with you as a HealthChoice FOCUS Network Provider. Please don't hesitate to contact the OHN Provider Relations/Customer Service staff at 1-405-652-1041 or 1-855-445-1471 with any questions you may have.

Sincerely,

A handwritten signature in black ink that reads "Brett Coleman".

Brett Coleman
Vice President, Regional Network Development
