## ALBUM FACTS

**Genre:** Rock **Packaging Specs:**

**Dimensions:** 5 1/8" H x 5 5/8" W x 5/8" D **DELUXE SET: 2-CD set, enhanced with a collectible 36-page booklet.** Featuring a treasure trove of concert and candid photos taken by Astrid Kirchherr, it also includes reproductions of the handwritten biographies written by each member of the group, signed contracts, other memorabilia, and a full-length essay on the Beatles' formative years by Hans Olof Gottfridsson, the acknowledged expert on this era of their career.

## Description:

**First Ever Recordings of The Beatles! 50th Anniversary Edition Includes 36-pg. Booklet!**

It was fifty years ago when the Beatles released their first recordings. Time Life is proud to offer the full story of their earliest sessions, the beginning of it all: **THE BEATLES WITH TONY SHERIDAN: FIRST RECORDINGS: 50th Anniversary Edition**. Released in one complete collection for the first time in North America, this compelling 2-CD collector's set is a remarkable story, told through music, words and photos, of a band on the cusp of changing music and pop culture forever. It's a fascinating and comprehensive view of one of the most important yet overlooked moments in Beatles history.

**BEGINNINGS:** One of the kings of orchestral pop, Bert Kaempfert discovered the group in a German nightclub, signed them to his own company and then released the songs through Polydor Records in Germany back in 1961; their Capitol Records debut didn't come until 1964. **THE BEATLES WITH TONY SHERIDAN: FIRST RECORDINGS: 50th Anniversary Edition** beautifully captures the moment in the lives of John Lennon, Paul McCartney and George Harrison right before they rocketed to international stardom. The earliest days of the Beatles have never been revisited in such detail and design.

**MONO & STEREO VERSIONS:** The set includes every recording they made for Kaempfert and Polydor in 1961 and 1962. Multiple adaptations have been released throughout the past several decades - some in mono, some in stereo - each with distinctly different sounds. Most notably, the U.S. versions of these tracks were overdubbed with another guitar player and drummer in an attempt to mirror the edgier sound the group had evolved into, unbeknownst to American fans at the time of their release in 1964. We've included all versions of every track, including mono and stereo mixes in this amazing collection showing the unmistakable sound of a new kind of band. ## WHY BUY?

- **Complete Collection Released for First Time in North America:** The complete story of the Beatles' first recordings in words, music and photos!
- **Spokesperson:** **Roy Young slated to be spokesperson for this release** -- he was with the Beatles during that time; they even asked him to join the band, but he already had a steady gig in Hamburg. He declined the offer but remained friends.
- **Fascinating & Comprehensive:** This collection is a compelling and in-depth view of one of the most important yet unknown times in the Beatles' history.
- **Both Mono & Stereo:** Includes every version and track of their earliest recordings.
- **Handwritten Bios:** John, Paul, George, and their drummer Pete Best, wrote these short bios for Polydor back in 1961!
- **Rare Photos by Astrid Kirchherr:** Includes previously unseen photos of the Beatles in Germany.
- **Historic:** Amazing 36-page booklet with history written by Beatles' expert.
- This is a CD set that no fan of the Beatles can be without.

**Description:** While touring in support of his 2008 album Harps and Angels, Randy Newman performed a special concert at London's intimate LSO St. Luke's, an 18th-century Anglican church that has been restored by the London Symphony Orchestra for use in its community and music education programs. He was accompanied by the BBC Concert Orchestra, conducted by Robert Ziegler, and the program was televised by the BBC. Nonesuch Records releases this concert as Randy Newman: Live in London on November 8, 2011.

The 22-song London set features songs from throughout Newman's four-decade long career, including some of his best-known songs like "Short People," "Louisiana 1927," and "I Think It's Going to Rain Today," as well as newer songs such as "A Few Words in Defense of Our Country" and "Laugh and Be Happy" (complete track list on next page). An interview from the BBC broadcast also is included on the DVD.

Newman performs a similarly diverse mix of songs on his Austin City Limits television debut, airing November 12 on PBS

## ARTIST & INFO

**Hometown:** Los Angeles, CA **Band Members:** Randy Newman with the BBC Concert Orchestra, Robert Ziegler, conductor

The recipient of two Academy Awards for Best Original Song, 20 Oscar nominations, six Grammy awards, and 14 Grammy nominations, Newman is a singular figure who over the course of his career has explored various styles and sounds of the canon of 20th-century American music.

A Los Angeles native, Randy Newman became famous during the 1960s and '70s for writing quirky, darkly funny, or sharply satirical songs detailing the lives of characters of his own making. This idiosyncratic style alternated between sweeping cinematic pop and rolling R&B, a style heavily influenced by time spent in New Orleans during his youth. After Randy Newman's self-titled debut album was released in 1968, his reputation as a songwriter grew quickly, as Judy Collins, Dusty Springfield, Peggy Lee, Harry Nilsson, and Joe Cocker, among others, recorded his songs. Newman began a career as a film composer in the early 1980s. Among his film compositions are many kid-friendly songs, including Toy Story's "You've Got a Friend in Me."

### Description:

**Mi Tributo Al Festival** is a tribute Yuri presents to the FESTIVAL OTI by recording some of the classic songs that found their way to the hearts of millions during the airing of the most popular Hispanic music variety - contest show in history. FESTIVAL OTI was viewed all over Latin America, Spain, Mexico and the U.S. It featured the biggest acts as well as newcomers, all performing never-before-heard songs from fresh new songwriters. Songs from one country would compete with others and the end result provided winners from all the Latin American countries, but only one song would go on to win the big prize. And every winner became a smash hit and would be recorded by some of the biggest acts of the moment.

Now, **Yuri** brings that excitement back by recording and releasing some of the favorite songs from this wonderful tv show. Some of the featured songs include "Al Final," "Se Solicita Una Aventura," "Como Tu," "Que Alegre Va María" and many more. This new studio release is complemented with an attractive price point in order to be offered at great sale prices throughout retail stores and holiday campaigns.

**ARTIST & INFO**

Caveman was born in New York in January of 2010, when a group of friends decided it was time to put aside their boyhood ways and start being men. The sound they crafted in that large, dark room is equal parts chamber pop, dreamscape, and horror film score. At a Caveman show you will hear fourpart harmonies, spaced-out guitars, synths, and, yes, much drumming. This has been a gallant year for the band, as since their first birthday they have shared the stage with bands such as Edward Sharpe & the Magnetic Zeroes, White Rabbits, Here We Go Magic, Cursive, Amazing Baby, and Blue Oyster Cult.

#### Description:

McCoy had discussed the band's album, **The Papercut Chronicles II**, "All I got to say is it's definitely going back to the essence of Gym Class Heroes, which is four dudes sitting in a room, vibing off each other".

#### ARTIST & INFO

**Hometown:** Geneva, NY **Band Members:** Travie McCoy, Disashi Lumumba-Kasongo, Eric Roberts, Matt McGinley

When childhood friends Travis McCoy and drummer Matt McGinley decided to start a band in upstate New York over a decade ago, they could have never anticipated how successful **Gym Class Heroes** would eventually become. How could they have predicted having a record-setting #1 single with "Cupid's Chokehold/Breakfast In America" or taking home the trophy for Best New Artist at the MTV Video Music Awards? And yet, they take it all in stride and see it as another source of inspiration.

After the addition of guitarist Disashi Lumumba-Kasongo and bassist Eric Roberts, the group was signed to Fueled By Ramen and Decaydance Records (Fall Out Boy bassist Pete Wentz's independent record label), on which they released their debut album, **The Papercut Chronicles**. The group gained a strong fan base while promoting the album, appearing at festivals such as Bamboozle and Warped Tour. In 2006, the group released the gold-selling album *As Cruel as School Children*. Since that release, the band's single "Cupid's Chokehold" reached #4 on the Billboard Hot 100, and "Clothes Off!!" peaked at #5 on the UK Singles Chart. On September 9, 2008, **Gym Class Heroes** released their third album, **The Quilt**, which contained numerous collaborations with other artists. Travie McCoy has also recently pursued a solo career, releasing the album **Lazarus** in June 2010 which contained the 3x-platinum single "Billionaire (feat. Bruno Mars)".

**Description:** After two decades of breaking all types of sales and concert records, the super group from Guadalajara, Mexico prepares itself to present their first studio album in almost five years, **Drama Y Luz**. Without a doubt, this is the most anticipated album to hit the Latin marketplace in years. Twelve new recordings are available on this production and all songs were written by the band members themselves.

First radio single "Lluvia Al Corazon" goes to all radio formats on March 7th. On this production, Mana has made sure they satisfy their diverse group of fans while not making much of a change on their formula and style of writing that has kept them the top Latin act over the past couple of decades. They deliver the raunchy, rock sound of their earlier days in songs like "Mi Reina De Dolor" and at the same time, deliver beautiful, heartfelt ballads such as "Vuela Libre Paloma" and "Amor Clandestino." **Drama Y Luz** will become another amazing collection for all Latin music fans as it delivers a production that took more than a year to create in recording studios throughout the world and the end result, is Mana at its best.

#### ARTIST & INFO

**Hometown:** Guadalajara, Mexico **Band Members:** Fher Olvera (Vocals, Guitar), Alex Gonzalez (Drums, Percussion),

Vocals), Sergio Vallin (Guitars), Juan Calleros (Bass)

Perhaps the most popular and influential Latin music artist of all time is **Maná**. They got their start in 1986. A few years later, they signed a new deal with Warner Music Group and released their debut CD Falta Amor in 1992. Their next studio CD was 1994's Donde Jugaran los Niños, the production that propelled them into the ranks of Latin rock super stardom. Cuando Los Angeles Lloran was released in 1995 and it opened new doors for **Maná** as they presented their first official U.S. tour which included major cities such as Miami, San Juan, Puerto Rico, New York City, Boston, Chicago, Dallas, Los Angeles, San Francisco, Phoenix and many more. Sueños Líquidos followed in 1997 and the band began to receive heavy global attention, particularly in the United States. This year mana released "Drama y Luz", which has become the strongest Latin seller of the year plus their summer tour became one of the highest grossing tours of the season. Now they release the Deluxe Edition of their most recent CD featuring bonus material for both the CD & DVD, including the brand new recording and hit single with Mana & Prince Royce titled "El Verdadero Amor Perdona".

As with all of their albums, **Mastodon**, which is bassist/vocalist Troy Sanders, guitarist/vocalist Brent Hinds, guitarist Bill Keliher, and drummer/vocalist Brann Dailor, decided to take a completely different tack and musical approach to the music on this album. The band feels confident that fans will be excited and fulfilled by what they will hear.

#### ARTIST & INFO

**Hometown:** Rochester, NY, Atlanta, GA **Band Members:** Troy Sanders (bassist/vocalist), Brent Hinds (guitarist/vocalist), Bill Keliher (guitarist), Brann Dailor (drummer/vocalist)

**MASTODON** is an explosive, unbridled force. Possessing an uncanny songwriting sense, fearless innovation, unparalleled technical ability and a bottomless pool of raw talent and creativity, **MASTODON** is inarguably one of the most exciting new bands to form in the last 10 years.

**MASTODON** formed in 1999 when drummer Brann Dailor and guitarist Bill Keliher moved to Atlanta, GA from their hometown of Rochester, New York. Only three weeks after arriving in Atlanta, Dailor and Keliher met bassist Troy Sanders and guitarist Brent Hinds at a HIGH ON FIRE show that Hinds put on in his basement. Dailor and Keliher had almost a decade of playing and touring experience together; Sanders and Hines had a half-dozen. Within a few weeks of forming, the quartet's intense songwriting chemistry generated a solid set of hard-hitting songs. These songs merely touched the surface of the outfit's boundless well of ideas.

**Description:** **The Hunter**, the follow-up to 2009's critically embraced *Crack The Skye*, was recorded in the band's hometown of Atlanta as well as in Los Angeles with producer Mike Elizondo. As with all of their albums, **Mastodon**, which is bassist/vocalist Troy Sanders, guitarist/vocalist Brent Hinds, guitarist Bill Keliher, and drummer/vocalist Brann Dailor, decided to take a completely different tack and musical approach to the music on this album. The band feels confident that fans will be excited and fulfilled by what they will hear.

**ARTIST & INFO**

**Hometown:** Rochester, NY, Atlanta, GA **Band Members:** Troy Sanders (bassist/vocalist), Brent Hinds (guitarist/vocalist), Bill Keliher (guitarist), Brann Dailor (drummer/vocalist)

**MASTODON** is an explosive, unbridled force. Possessing an uncanny songwriting sense, fearless innovation, unparalleled technical ability and a bottomless pool of raw talent and creativity, **MASTODON** is inarguably one of the most exciting new bands to form in the last 10 years.

**MASTODON** formed in 1999 when drummer Brann Dailor and guitarist Bill Keliher moved to Atlanta, GA from their hometown of Rochester, New York. Only three weeks after arriving in Atlanta, Dailor and Keliher met bassist Troy Sanders and guitarist Brent Hinds at a HIGH ON FIRE show that Hinds put on in his basement. Dailor and Keliher had almost a decade of playing and touring experience together; Sanders and Hines had a half-dozen. Within a few weeks of forming, the quartet's intense songwriting chemistry generated a solid set of hard-hitting songs. These songs merely touched the surface of the outfit's boundless well of ideas.

## ALBUM FACTS

**Genre:** Rock **Producers:** Drew Barrymore, Scott Litt, R.E.M., Pat McCarthy, Raja Gosnell, Liz Heller, Jackknife Lee, Nancy Juvonen **Packaging Specs:** 2-CD Set, Album in softpak

**Description:** Part Lies, Part Heart, Part Truth, Part Garbage, 1982 - 2011 is a 40-song career-spanning retrospective that collects, for the first time ever, songs from **R.E.M.'s** entire back catalog, including the pioneering American band's years on both the IRS label (1982 to 1987) and Warner Bros. Records (1988 to 2011).

In addition to liner notes written by band members Berry, Buck, Mills, and Stipe, the album also features three new songs that **R.E.M.** finished after they completed their last album, Collapse Into Now: "A Month of Saturdays," "We All Go Back To Where We Belong," and "Hallelujah," which were recorded over the summer in Athens with Accelerate and Collapse Into Now producer, the estimable Jackknife Lee. The band came roaring back with those two albums in the last two years, achieving some of the best reviews of their career and enabling them to go out at the top of their game.

## ARTIST & INFO

**Hometown:** Athens, GA **Band Members:** Peter Buck, Michael Stipe, Mike Mills

**R.E.M.** mark the point when post-punk turned into alternative rock. When their first single, "Radio Free Europe," was released in 1981, it sparked a back-to-the-garage movement in the American underground. While there were a number of hardcore and punk bands in the U.S. during the early '80s, **R.E.M.** brought guitar pop back into the underground lexicon. Combining ringing guitar hooks with mumbled, cryptic lyrics and a D.I.Y. aesthetic borrowed from post-punk, the band simultaneously sounded traditional and modern. Throughout the '80s, they worked relentlessly, releasing records every year and touring constantly, playing both theaters and backwoods dives. Along the way, they inspired countless bands, from the legions of jangle pop groups in the mid-'80s to scores of alternative pop groups in the '90s, who admired their slow climb to stardom.

## ARTIST & INFO

**Hometown:** New Orleans, LA

Since releasing their first EP in late 2004, **MUTEMATH's** inherent nature has challenged limitations and expanded parameters. By the time they released their 2006 self-titled debut, their blending of adverse genres into its own innovative sonically adventurous creation earned them a reputation as one of modern music's most daring young groups. By 2007, they would find themselves nominated for a Grammy (for "Best Short Form Music Video" for their single "Typical") and declared "*the #1 band you need to see live before you die*" by Alternative Press.
