Sixth Form Update

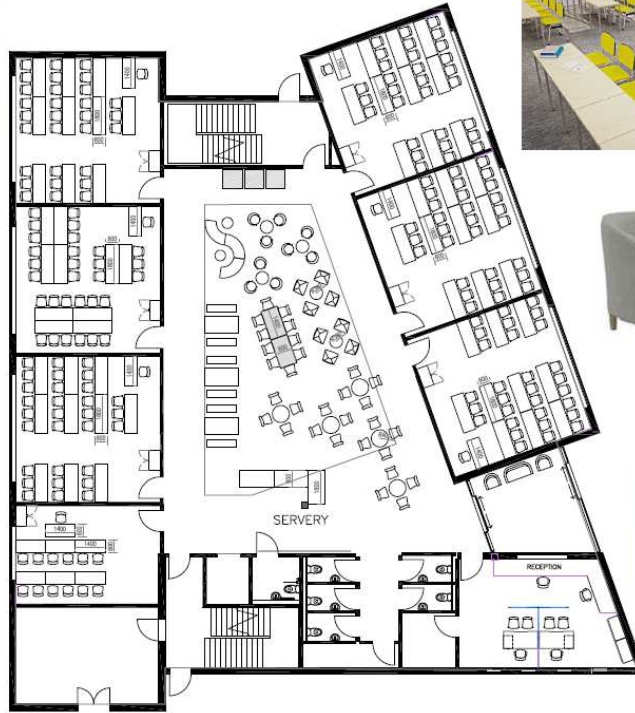

The last month has again brought very significant progress in the construction of the new Sixth Form building. All glazing is now in place with the exception of the largest area of glass around the entrance which will be fitted next week. The insulation and rendering is in place at the rear of the building and brickwork is now all complete. During half-term all remaining services, such as data and CCTV will be linked in from the main building.

The rear and sides walls of the Sixth Form Centre are coated with the weather-proof render and are now close to completion.

Plans for the internal furnishings and fittings are now been finalised. Examples above are representative of styles chosen rather than the colours selected.
