SIGNATURE OF APPLICANT <i>This form must be signed by applicant</i>			
DATE			

INFORMATION NOTE: It is a requirement that the premises is treated to kill any rodents which may be on the property prior to issue of a demolition permit. A rodent bait shall be placed in each room, the roof space and sub floor (if applicable) and left for a minimum of 4 days. If the bait is taken then it should be replaced until the rodents cease taking the baits. Upon receipt of this application, the City's Health Services will contact you to arrange for an inspection and a rodent treatment certificate to be issued.

Alternatively, you may submit a certificate from a licensed pest control operator with this application form certifying that the premises has been satisfactorily treated to ensure that it is not infested by rodents at the time of demolition and a rodent treatment certificate will be issued.

A rodent treatment certificate must be submitted with the application for a demolition permit. A demolition permit will **not** be issued without a valid certificate.

Application form can be submitted to the City by:

Post: PO Box 21, BUNBURY WA 6231
