

To All BHS Parents,

The "No Child Left Behind Act of 2001" requires that the school must provide a listing of student names, addresses and telephone numbers to armed services recruiting officers, when requested to do so. If, however, a parent chooses not to allow the school to release this information, a written request from the parent must be on file.

The official position of Bourne High School is to make the information available to the recruiters unless otherwise directed by a parent, or student who is 18 or older. Please fill out and return the enclosed form by October 15th if you DO NOT want the information released.
