These proof coins include a Cent, (2) different Commemorative Nickels, a dime, a half dollar, a Sacagawea Dollar, all 5 of the 2005 Statehood Quarters, a silver proof John Marshall Dollar, and a silver proof Marine Corps Dollar! depicting Abraham Lincoln The \$2 Bill Celebrates the Bicentennial In this offering of (18) crisp uncirculated 1976 series Bi centennial Federal Reserve Note \$2 bills! They feature Thomas Jefferson, the primary author of the Declaration of Independence on the front, and the signing of the Declaration of Independence on the back. No paper currency could be more emblematic of the Bicentennial than the \$2 bill. In spite of its relatively low denomination, the \$2 bill is one of our nation's most seldom-seen or used bills. This is due in large part to the Treasury Department's low production of the note; approximately .5% of all U.S. notes produced are \$2 bills. The other reason is purely psychological. Many Americans remain remarkably superstitious about spending it, which further decreases its circulation. This \$2 bill is so limited in circulation that few electronic cash

will accommodate it. \$17.50 per or (10) or more for only \$15.00 per (1) Nice Fine Series 1934A North African Campaign \$5 Silver Certificate depicting Abraham Lincoln

TREASURE COINS

On April 18, 1743, the East Indiaman Princess Louisa shipwrecked near the island of Malo, part of the Cape Verde Archipelago. With her other cargo went 20 chests of "cabo de barra", 69,760 ounces of 'end of bar" silver cobs, or Spanish silver Reales. The East India Company named the ship Princess Louisa after the youngest of King George II's children. It was a smaller merchant vessel, not a large Spanish galleon. Nonetheless, with two decks and three masts , it was one of the largest of the English fleet, built for graceful speed. Captain John Pinson with a crew of 100 set on a fourth voyage to Bombay and Persia in March 743. Because the voyage traversed through pirate waters, The Princess was accompanied by a smaller merchant ship, the Winchester, and the HMS Sterling Castle.

TREASURE COINS

(continued)

Near the Cape Verde Island the Winchester fell behind. Later that night, well off the Isle of Malo, The Princess Louisa fired her cannon to warn the convoy of dangerous breakers on a coral reef. The Princess Louisa did not avoid the danger. All that was seen the next morning was a broken up ship stranded on the reef. Because the sea was rough, the Winchester could not save the crew, and continued her voyage. SCI proudly offers only two silver reales from this famous treasure ship as follows, both struck in Potosi, Bolivia.
